

All the signs of the last days are converging at the same time. Bible Prophecy is happening right before our eyes like birth pains, the predicted events are happening more frequently and more intently. Never, in the history throughout the world have so many forces, including economic, scientific, techno-logic, ecologic, cultural, geopolitical, moral, spiritual and religion, converged together to bring this world that's already teetering over the edge into the abyss, to a point of no return. Jesus said when you see all these signs happening, know that I am near, even at the door.

Powerful New Movement In Israel Has Thousands Of Jews In Israel Making Plans After The War To Resettle The Gaza Strip As A Jewish City, A Terrible Idea. For many Jews on the right, conquering the Gaza Strip and reestablishing Israeli settlements there is no longer just a dream. The word 'Gaza' appears 19 times in your King James Bible, and in every one of those places it refers to the region we know today as Gaza, or the the Gaza Strip. It also talks about Palestine, or Palestina, referring to exactly what we know today as the ever-troubled land just over the northern border of Israel. Don't think for second that your trusty KJV is old and out of date, it's still ahead of tomorrow's headlines, and for that matter, ahead of today's headline about turning Gaza into an extension of Israel.

"But I will send a fire on the wall of Gaza, which shall devour the palaces thereof:"
Amos 1:7 (KJB)

Speaking of Bible prophecy, all the prophets speak of the day when Israel will be restored to the original land grant God gave to Abraham. That's a fact. Isaiah shows you the glorious restoration of Zion in chapter 60, Zechariah 14 shows you the final removal of the Canaanite, the people we call the Palestinians, from the land of Israel, with dozens of more such verses everywhere you look in the Old Testament. But wait a minute, there's one, tiny little 'catch' you need to be aware of. These things will not take place now in the Church Age, nope, they will happen at the Second Advent when we return with King Jesus on white horses that Revelation 19 shows us. All attempts to 'bring in the kingdom' now will utterly fail, and that's a guarantee. Attempting to 'retake Gaza' before that time will do nothing but make the Middle East explode, you watch and see. I believe the prophets, only the KING OF KINGS and LORD OF LORDS Jesus Christ can do it, and He absolutely will.

When Churches Dismiss Bible Prophecy... They Do So To Their Own Detriment – David Reagan. Is prophecy practical? Consider that all the New Testament writers testify to the fact that living with the anticipation of the Lord's return will motivate holy living. What could be more practical than that? Here's the way the Apostle John put it:

Matthew 24:1-4 And Jesus went out, and departed from the temple: and his disciples came to him for to shew him the buildings of the temple. 2 And Jesus said unto them, See ye not all these things? verily I say unto you, There shall not be left here one stone upon another, that shall not be thrown down. 3 And as he sat upon the mount of Olives, the disciples came unto him privately, saying, Tell us, when shall these things be? and what shall be the sign of thy coming, and of the end of the world? 4 **And Jesus answered and said unto them, Take heed that no man deceive you.**

PsyOps: The Historical, Modern, And Spiritual Warfare Tactics Used To Manipulate The Mind. It was once said that information is power. That has proven to be very true, particularly in the hands of those who can skillfully wield that power to influence the thoughts, emotions and actions of individuals and groups. The military gives this strategy a name: psychological warfare or PsyOps for short. At its core, PsyOps uses information to manipulate how adversaries, allies, and neutral parties perceive a scenario or enact decision-making processes in response to a particular scenario. These strategies seek out well-defined objectives such as:

1. Undermining the morale and will to fight of an enemy;
2. Influencing the population of another country to support the objectives of those launching the PsyOps;
3. Discrediting opposition groups or governments;
4. Shaping public opinion in support of a particular cause or policy; and
5. Diverting attention away from sensitive activities or operations.

Burgeoning New World Order. 'Don's wild conspiracy theory stories had seemed innocent and even silly before, but in the midst of the coronavirus pandemic they suddenly seemed plausible.' Uh-huh. Today is Day 1,417 of 15 Days To Flatten The Curve, and the lies and deception coming at us from our governments, our media, and from people in trusted positions of authority is truly mind boggling and mind numbing at the same time. On our Podcast yesterday, I discussed with Dr. Robert Malone how dangerous this level of deception has become, and it grows worse by the day. Take, for example, this story from the Associated Press about conspiracy theory. Oh, don't you dare believe your lying eyes, people, that's the ticket. Keep 'em closed and stay 6ft apart. And wear a mask or two. Or three.

"And judgment is turned away backward, and justice standeth afar off: for truth is fallen in the street, and equity cannot enter." Isaiah 59:14 (KJB)

The government told us over and over that the COVID vaccine, not a vaccine, was 'safe and effective', and neither one of those two things were true. The Pfizer and Moderna shots did not stop the virus, did not prevent transference, and the vaccinated in 2024 die at a higher rate than the unvaccinated. Now, I will agree that like with anything else, there is good conspiracy theory, meaning it's true, and bad conspiracy theory meaning it is not true. For example, anything QAnon tells you is likely a lie, almost nothing they warned of actually happened. That's bad conspiracy theory. But things that NTEB and others warned you about like the dangers of the shot, the plan for the coming digital ID, and the wickedness of the UN Agenda 2030, all of that is true and playing out as we watch. 15-Minute Cities? Check. Cricket flour? Check. Abraham Accords? Check. The Great Reset? Check. Event 201? Check. Taking away our meat? Check. Making us eat bugs? Check. Aliens and UFOs in the skies? Check, check and check again. Watch the video below, and listen as New World Order globalist David Rockefeller thanks the main stream media for conspiring to stay silent as they attended 40 years of One World Government Bilderberg meetings. Oh yeah, man, that's how it goes. Feel free to 'fact check' anything we've said, AP, we welcome it.

Movement into Madness – Terry James. The old saying, "What goes around comes around," is certainly true, especially in terms of fallen humanity's prophetic trek across linear time. The antediluvian evil and wickedness Paul delineates is mirrored precisely in this generation. We are enduring madness wrought by humanity turning its back to God and determining to do what is right in their own mind.

A Time Of Wars And Rumors Of Wars, Famines, Pestilences And Major Natural Disasters. On some level, most people can feel what is coming. That is why sales of emergency food are at record levels, shows about survival are among the most popular on television, and Mark Zuckerberg is building a "self-sustaining doomsday bunker" in Hawaii. Millions of us realize that we are on the brink of an extremely chaotic chapter in human history. Of course, the past several years have already been pretty wild, but I believe that the years immediately in front of us will take things to an entirely new level.

Euphrates River begins to dry up: 'A prophesy of Jeremiah'. The humanitarian crisis caused by the decade-long civil war in Syria is worsening as the Euphrates River, the longest river of Western Asia, is drying up. Originating in Turkey, the Euphrates flows through Syria and Iraq to join the Tigris in the Shatt al-Arab, which empties into the Persian Gulf. This year, rainfall in southern Turkey where the Euphrates begins was the lowest in 30 years and for the past two years, the region has received only 50-70 percent of normal rainfall. Syria is currently facing its worst drought in 70 years. Both Christian and Muslim eschatology include prophecies of the drying up of the Euphrates signaling the end-of-days. In Islam, some of the hadiths suggest that the Euphrates will dry up, revealing unknown treasures that will be the cause of strife and war. In the Christian Book of Revelation, it is prophesied that in the "near future the Potamos Euphrates or "breaking forth like water" of the middle east will dry up in preparation for the Battle of Armageddon.

God Will Get the World's Attention :: By Howard Green. The God that's widely presented is one of our own making. He is part Santa Claus, genie, and yes-man who exists to validate us and enhance our lives. The world's concept of God is a Hallmark card version or a helpless plastic baby in a manger. For fear of losing crowds, many so-called ministries are reluctant to present the true Jesus.

On Thin Ice With God: The Growing Betrayal of Israel And Obsession With Dividing Jerusalem. In an article on her website, Caroline Glick wrote, "The Biden administration showed its hand on Tuesday when U.S. Secretary of State Anthony Blinken gave Israel an ultimatum to support Palestinian statehood or risk demonization by the administration." This is blackmail; it's the U.S. seeking to impose its will in defiance of Israel's elected leader. This strong-armed approach displays a total lack of concern for its people. The January 22, 2024, Harbinger's Daily update on Israel's ongoing war contains quotes from the Israeli Prime Minister stating his total disagreement with the Biden administration. He recently rejected the U.S. President's solution of a non-militarized Palestinian state. In doing so, he said, "I will not compromise on full Israeli security control of all territory west of the Jordan River." When one considers the position of the Palestinians, one has to wonder if the Biden administration is naïve or purposely seeking to place the continued existence of Israel in jeopardy. Poll after poll reveals that the Palestinians do not favor a two-state solution. The chants of "from the river to the sea," which we hear in demonstrations across the world, show their true intent: the total abolition of Israel.

When is the last generation? The history of the world and mankind is about 6,000 years. The Bible – the written record of God's Word – gives us information from the Creation up until the time of the Flood in Noah's day, about 1,656 years after, that cannot be known otherwise by whatever historical records and archeology there might have been since the Flood would have destroyed them. (Similarly, Jewish people today – including some false Messiahs – cannot trace their Israeli tribal lineage back before the destruction of the Second Temple, because the records kept there were destroyed in the fire.)

Prophetic Chess Pieces — Israel And Syria Go Toe To Toe; U.S. To Recognize A Palestinian State? When we talk about the Iranian-backed ring of fire that surrounds Israel on all sides, we focus oftentimes on Gaza and Israel's war against Hamas terrorists. Lebanon is frequently discussed, which is Hezbollah's main power base that is exchanging daily fire, even deadly fire, with Israel. We also have the Houthis in Yemen, harassing shipping in the Red Sea, and very active Iranian-backed Shia militias in Iraq causing havoc, in particular, against US targets. But many times, it seems that Syria is left out of the equation in the larger conversation. Well, folks, let me tell you, Syria remains a very active front. Israel has carried out hundreds, if not more, airstrikes in Syria over the past several years, striking Iranian-backed targets in the region.

Record-breaking winds hit parts of northern Norway, causing widespread damage. A powerful storm brought hurricane-force winds to northern Norway on January 29, 2024, tearing down buildings and disrupting transport, while leaving thousands without power. Another storm system is expected to rapidly intensify before making landfall in Norway on January 31, bringing extremely strong winds and heavy snowfall. The intense weather system tore down buildings, threw boats onto roads, and left thousands of residents without power. In response to the severe conditions, police advised residents to stay indoors and seek cover.

China issues warning for strongest winter weather since 2009 during Spring Festival travel. Amid the ongoing Spring Festival travel rush, China faces significant weather challenges with the National Meteorological Center issuing a blue alert for heavy snowfall in several provinces. China's National Meteorological Center renewed a blue alert on Wednesday, January 31, 2023, for heavy snow in parts of the country. From Wednesday morning to Thursday morning, regions including Shaanxi, Shanxi, Hebei, Henan, Shandong, and Jiangsu are expected to experience snowstorms, with snowfall ranging from 2 cm to 5 cm (0.8 – 2 inches). This weather event is particularly significant during the ongoing Spring Festival travel rush, known as "chunyun," a period when millions travel to reunite with family. Authorities have been advised to prepare for the impacts of extensive rain, snow, and freezing weather, which could affect roads, railways, electricity, and telecommunications.

Is it just a coincidence that the Great American Eclipse of 2024 will enter the U.S. at Eagle Pass, Texas? The Great American Eclipse of 2024 is just a little bit more than two months away, and amazingly the very first city that the path of the eclipse crosses over when it enters the U.S. is Eagle Pass, Texas. There are more than 19,000 incorporated cities, towns and villages in the United States, and out of all of them Eagle Pass is the very first that the eclipse will touch. On April 8th, 2024 the entire world will be watching as the Great American Eclipse travels across America. EXPERT: Star of Jacob will appear on Friday, September 27. A brilliant but relatively unknown author and teacher referred to classical Jewish sources that described the tumultuous end of days in terms that were disturbingly similar to current events. The Zohar describes an unmistakable sign that heralds the appearance of the Messiah: the Star of Jacob first described in the Bible by Balaam. The Zohar gives a precise day and date that this pre-Messiah astral body will appear and recently, astronomers confirmed that on that precise date, a comet will appear in the heavens.

Astrophysicist baffled after discovering 'INVISIBLE' galaxy named 'Nube' that could change scientists' understanding of universe. Astronomers discovered a nearly invisible dwarf galaxy that cannot be explained by our current understanding of the universe. The mysteriously faint formation - which has been named Nube - is unique because of its high levels of dark matter and low mass at its center. These unusual attributes mean Nube's stars are very spread out and therefore the galaxy emits barely any light, allowing it to evade detection for years. The galaxy is 10 times fainter than most other galaxies of the same size. 'With our present knowledge we do not understand how a galaxy with such extreme characteristics can exist,' according to Mireia Montes, the study's lead author and an astrophysicist at the Institute of Astrophysics of the Canary Islands.

Black-hole 'particle accelerators' are causing mysterious cosmic rays to rain down on Earth. A small black hole is helping scientists understand how mysterious cosmic rays can barrel through the universe and hit Earth at nearly the speed of light. High-energy cosmic rays are constantly raining down on us from space, but scientists don't know that much about them. One long-standing mystery is how cosmic rays can reach our planet at such speeds. For the first time, researchers looking at the black hole have spotted a naturally occurring particle accelerator speeding up the cosmic rays bombarding our planet.

Thank You Chizkiyahu: We're at that 1938 moment. If you asked an "expert" in 1938, "Is the world at war?" they likely would have said no and explained there were disconnected regional conflicts in Asia, Europe, and Africa, but nothing to worry about. By 1939, the "experts" changed their tune. We're at that 1938 point, again.

Iran is now a 'legitimate target' for Israeli missile strikes, senior minister says: Iran is now a "legitimate target" for Israeli missile strikes, one of the country's most senior ministers has told the Telegraph, raising the prospect of an all-out war with Tehran. In a wide-ranging interview, Nir Barkat, Israel's economy minister, also said Palestinians from the West Bank would never be allowed to work in the country again and would be replaced by more than a quarter of a million imported foreign workers. He also complained that the war in Gaza had not been fought aggressively enough.

Israel refusing to give Red Cross information on jailed Hamas terrorists. In a reversal of an earlier decision, The State Attorney announced that it won't give the International Committee for the Red Cross information it has requested about Hamas terrorists who are currently detained in Israeli prisons, as reported by Maariv. The Red Cross has not provided information to Israel about the condition of the hostages still held in Gaza, and Israeli National Security Minister Itamar Ben-Gvir recommended not offering details about incarcerated terrorists.

IDF creating buffer security zone on Gaza border. The IDF is constructing a one-kilometer (0.63 miles) buffer zone on the Gaza border to prevent future attacks like the Hamas invasion of communities in southern Israel on October 7th, The Wall Street Journal reports. Israel's military is filling in terror tunnels, demolishing buildings and bulldozing areas to ensure a clear space through which the military can detect any threats that may approach the border with Israel.

IDF unearths Hamas operation room in tunnel under Khan Yunis cemetery. Inside the tunnel, the forces unearthed the office of the eastern Battalion commander from the Khan Yunis Brigade, from where he directed the October 7 attacks, according to the IDF. Troops of the 98th Division raided an underground tunnel located under the Bani Suheila cemetery in the heart of Khan Yunis, the IDF reported on Monday. While inspecting the tunnel, the fighters found explosives and sliding doors and eliminated terrorists who were inside.

Hamas Official Says Group Seeking 'Complete Ceasefire,' Not A 'Temporary Truce'. A senior Hamas official says that the terror group wants a "complete and comprehensive ceasefire" in Gaza, after mediator Qatar said earlier that a framework for a temporary truce was being proposed. "We are talking first of all about a complete and comprehensive ceasefire, and not a temporary truce," Taher al-Nunu tells AFP, saying that once the fighting stops, "the rest of the details can be discussed" including hostage release.

Netanyahu refuses to withdraw from Gaza and release 'thousands of terrorists' held by IDF forces - as he vows to fight until 'absolute victory' over Hamas. Israeli prime minister Benjamin Netanyahu today rejected two key demands Hamas has made during indirect ceasefire talks, saying Israel will not withdraw from the Gaza Strip or release Palestinian prisoners held in Israel. Speaking at a religious pre-military academy in the occupied West Bank on Tuesday, he repeated his vow to keep fighting until 'absolute victory' over Hamas as mediators work to keep alive hopes of a potential ceasefire in the coming days.

'We will not end this war without achieving all of our goals,' he said, alluding to Israel's stated twin objectives of releasing the remaining hostages and 'dismantling' Hamas rule in the beleaguered Palestinian enclave. 'We will not withdraw the Israeli military from the Gaza Strip and we will not release thousands of terrorists,' he said, referring to Hamas' main demands.

Israeli Hostage Families Block Border, Demand No Gaza Aid Until Relatives Freed. Relatives and supporters of Israeli hostages being held by Hamas have attempted to block humanitarian aid entering Gaza over the past week, gathering at border crossings to protest and to obstruct truck convoys of supplies being sent through Israel. Israel has allowed dozens of trucks of humanitarian aid to enter Gaza, after inspection, since shortly after the war began. It has allowed the aid to flow despite evidence that much of it is stolen by Hamas terrorists and armed gangs, and kept from civilians.

IDF confirms flooding Hamas tunnels in Gaza with seawater. Measure utilized as army works to destroy massive tunnel network running 350-400 miles long as part of ground operation in Gaza Strip. The Israel Defense Forces said Tuesday that it had been flooding some tunnels in the Gaza Strip with seawater, confirming what had been an open secret for several weeks. Several IDF units and officials at the Defense Ministry jointly developed "several tools for injecting high-flow water into Hamas tunnels in the Gaza Strip," the military said in a statement, adding that it is "part of the variety of tools the IDF has for dealing with tunnels." The IDF clarified that not all tunnels were being flooded, as the process, which includes attaching pipes and pumps to the shafts, was not suited to all the tunnels and could severely damage some areas.

Israel defeats Hamas in Khan Yunis, over 10,000 Gazan terrorists killed. Defense Minister Yoav Gallant said that after additional gains by the IDF in Khan Yunis, 10,000 Hamas fighters have been killed and 10,000 wounded. Defense Minister Yoav Gallant announced on Thursday night that Hamas forces in Khan Yunis have been officially defeated. He said that after additional gains by the IDF in Khan Yunis, 10,000 Hamas fighters have been killed and 10,000 wounded, up from around 9,000 killed and around 8,000 wounded around a week and a half ago. If true, along with the close to 2,500 Hamas terrorists who have been arrested, the percentage of Hamas forces out of commission would now be up to between 56-75%, up from 48-64% around 10 days ago, presuming Hamas' forces pre-war were between 30,000-40,000.

Israeli government knew Biden's executive order was coming, Kirby says. President Biden's new executive order is a signal to the whole world how seriously he takes settler violence against Palestinians in the West Bank, White House National Security spokesman John Kirby said on Thursday aboard Air Force One. The order is a direct answer to the dramatic increase of violence we've seen from settlers to Palestinians in the West Bank since Oct. 7, Kirby said. According to Kirby, there are no plans at this time to target Israeli government officials. While Kirby said the administration did inform the Israeli government of the order before it was announced, he skirted around answering if Biden told Netanyahu directly.

US names four Israeli settlers sanctioned for violence against West Bank Palestinians. "There is no justification for extremist violence against civilians, whatever their national origin, ethnicity, or religion." The State Department released the names of four individuals who will be sanctioned under President Joe Biden's executive order issued Thursday aiming to quell violence against Palestinians in the West Bank. "The United States has consistently opposed actions that undermine stability in the West Bank and the prospects of peace and security for Israelis and Palestinians alike. This includes attacks by Israeli settlers against Palestinians and Palestinian attacks against Israelis," according to the State Department. "There is no justification for extremist violence against civilians, whatever their national origin, ethnicity, or religion." According to the State Department, David Chai Chasdai initiated and led a riot, which involved setting vehicles and buildings on fire, assaulting Palestinian civilians, and causing damage to property in Huwara, which resulted in the death of a Palestinian civilian.

China Mocks Biden for Requesting Help with Houthis. Chinese state media on Friday mocked the Biden administration for requesting China's help with the Red Sea shipping crisis. A group of anonymous Iranian officials told Reuters that while Beijing is not interested in helping the United States, it has informed the Iranians that attacks by their Houthi terrorist proxies in Yemen must not damage China's interests in any way.

The United States Navy Essentially Lost A Battle At Sea This Week. On Wednesday the US Navy attempted to escort two US owned and flagged container carriers through the Bab el-Mandeb Strait into the Red Sea, but they turned around after coming under Houthi ballistic missile fire. As we detailed earlier, two contradictory narratives soon emerged: namely the Houthis said they scored a direct hit on one of the US ships, while the Pentagon flatly rejected the claim as nonsense. US CENTCOM said the missiles were intercepted, with one falling into the sea. But this has given rise to many more questions than answers, and some analysts are calling the hostile encounter a clear "loss" for the US Navy and the no less than three well-armed warships attempting to keep the commercial vessels safe.

US gives chilling nuke warning over recent Iran attack that left several US soldiers dead. US President Joe Biden has been given a chilling nuclear warning over attacking Iran after three US soldiers were killed by a 'kamikaze' drone. Ex-UN weapons inspector David Albright said the rogue state could be led into thinking that building nuclear warheads is their "best way out" if they are directly targeted by the US in retaliation for the deaths. US Central Command confirmed the killings today and said a further 25 were wounded in the attack by Iran-backed militia – who Mr Albright said would have used a kamikaze drone. President Biden said the US would "hold all those responsible to account at a time and in a manner of our choosing" in a statement.

Flashback: Biden in 2020 Criticized Trump for Soldiers Being Injured in Iraq by Iran. With the news of three American soldiers killed and at least 25 injured in Jordan on Sunday, President Joe Biden now finds himself in a worse position than the one he criticized his predecessor, former President Donald Trump, for in 2020. As the then-former vice president was campaigning against Trump in January 2020, he criticized Trump for U.S. troops in Iraq suffering traumatic brain injuries caused by an Iranian missile attack and dismissing the injuries as minor.

Russia and China warn against 'cycle of retaliation' as Biden threatens to target their ally Iran after drone attack killed three US soldiers. Russia and China have rushed to the defence of their ally Iran and urged the United States to show restraint in its response to the killing of three American soldiers. The United States has vowed to respond to a drone attack on a base in Jordan that claimed the lives of three American soldiers, raising fears of an escalating Middle East conflict. Iran-backed militants have been blamed for the strike on the Tower 22 base, leading to calls at home for US president Joe Biden to respond robustly and with force. But in an apparent bid to temper America's expected retaliation against their Iranian ally, both Russia and China have today called for a de-escalation in the region.

US will keep nuclear weapons in Britain for the first time in 15 YEARS as fears of a European war edge ever closer. The United States is planning to station nuclear weapons in Britain for the first time in 15 years to counter threats from Russia, it emerged last night. Pentagon documents reveal the US is intending to place warheads three times the strength of the Hiroshima bomb on UK soil. Moscow said it would view the move as an 'escalation' that would be met with 'counter-measures'. Procurement contracts for a new facility at RAF Lakenheath in Suffolk show the US plans to house B61-12 gravity bombs 'imminently' at the site. US warheads were last stationed in Britain in 2008, when it was judged that the Cold War threat from Russia had decreased. The plans come as part of a Nato-wide programme aimed at developing and upgrading nuclear sites in response to rising tensions with the Kremlin.

Mmm! Meteorologists in Northern Texas were baffled last week when their radar systems detected a thinly-shaped blob drifting across the Dallas-Fort Worth area. The National Weather Service reported its radar systems picked up a strange blob sweeping over the Dallas Fort Worth area despite it not raining. After further examination, the National Weather Service of Fort Worth stated that their "best guess is chaff." The NWS continued, "The military will sometimes run exercises where they release chaff, and it's completely harmless. But it definitely shows up on radar as it is quite reflective." Chaff is a "radiofrequency countermeasure released by military aircraft, ships, and vehicles to confuse enemy radar." Chaff was first used on the battlefield during Operation Gomorrah in Germany and notably used the day before D-Day.

SHOCKER: \$40 Million Earmarked for Military Ammunition Stolen by Corrupt Ukraine Officials. The Security Service of Ukraine (SSU) has uncovered a massive procurement fraud involving approximately \$40 million, funds intended to purchase military ammunition. The SSU announced that the scheme implicated several high-ranking officials within the Ministry of Defense and management figures from Lviv Arsenal, an arms supplier, the Boston Globe reported. Lviv Arsenal received advance payment for the ammunition in August 2022, but the shells were never delivered. Instead, the allocated funds intended for buying 100,000 mortar shells were transferred to a foreign commercial entity and subsequently rerouted to another affiliated organization in the Balkans without delivering any ammunition.

Ukraine is forced to deny firing its military chief and rumours swirl that Putin's war commander has been killed as deep tensions on both sides over conflict's stalemate. Volodymyr Zelensky denied that he had fired his war supremo General Valerii Zaluzhnyi as deep tensions simmer on both sides over failures to make major breakthroughs in the war. Zaluzhnyi, 50, even posted a picture overnight with Chief of the Ukrainian General Staff Serhiy Shaptala, also 50, evidently to demonstrate that he was still in charge. Meanwhile, Vladimir Putin's war commander General Valery Gerasimov has not been seen for more than one month after an unverified series of reports that he had been killed in a missile strike on Sevastopol. Gerasimov, 68, is known for going for long periods without being seen, yet he has failed in this period to raise the morale of his forces with visible visits to the frontline.

Ukraine set to receive new game-changing US-made 'glide bombs' with 100-mile range as soon as today in new frontline blow to Putin. The new 100-mile 'glide missiles' could prove to be a game changer in Kyiv's military capabilities, and in its fight against Vladimir Putin's invading forces. Built by Boeing and Saab, the new precision-guided missiles will also supplement Ukraine's existing ATACM rockets, which are provided by the US. Their arrival follows months of testing by the United States military, but even the US doesn't have these weapons in its arsenal, sources cited by Politico said. Ukraine is set to receive the Ground-Launched Small Diameter Bombs as early as today, according to the US officials familiar with the matter, a relief for officials in Kyiv after the EU said it would provide only half the shells it promised by March.

Here are 8 signs that demonstrate how truly bizarre our society is becoming. In "The Wizard of Oz", at one point Dorothy tells her dog that she has "a feeling we're not in Kansas anymore". She had been dropped in a strange new world that was crazier than anything she had ever imagined. Needless to say, many of us feel the exact same way. We're not in the America that we grew up in anymore. Instead, we now live in a country that appears to be a cross between a really bad science fiction movie and a freak show. Sadly, the pace of change has now reached an exponential rate, and things will get even more insane during the years that are ahead of us. The following are 8 signs that demonstrate how truly bizarre our society is becoming.

New State Law Opens The Door For Mass Medicalization And Surveillance Of Children, Expert Warns. Every child in Illinois government schools will be subjected to intrusive "mental health" screenings and data-gathering schemes starting this fall under a controversial new state law, opening the door for further mass-medicalization and surveillance of children as well as huge profits for politicians' Big Pharma campaign donors. Critics are sounding the alarm. The measure, adopted under the state's Wellness Checks in Schools Program Act, is aimed at dealing with what policymakers describe as an explosion of "mental health" problems among children. The trends have been getting worse for years. But the government responses to COVID such as school shutdowns and mandated face masks reportedly caused a dramatic spike in mental issues.

Sushi of the future? Scientists reveal the first ever lab-grown EEL - and it looks and tastes just like the real deal. It's a favourite dish among sushi lovers around the world, but your unagi nigiri might not come from the sea in the near future. Instead, the eel could be grown in the lab. The Japanese eel, or unagi, is renowned for its rich flavour, but demand is so high that wild populations are now threatened with extinction. By growing the delicacy from embryonic cells, Israeli startup Forsea Foods says it could provide the meat commercially as early as 2024 without harming fish stocks. Roee Nir, CEO and co-founder of Forsea says that this will 'provide the consumer with a genuine seafood experience without putting further strain on aquatic life.'

What does the decimation of North American buffalo herds have in common with 15-minute cities? It is January 2024. Amish farmers are still being raided, and Bill Gates is buying more US farmland for who only knows what purpose. For nearly a year, The Tenpenny Report has been writing about how the Deep State is trying to starve us and then starve us some more. Food plant fires and avian bird flu are all cleverly disguised but all have one goal: control over the food supply.

UN's Next Goals: End National Militaries, Establish Global Military, Disarm You. The United Nations Summit of the Future is being held this September in New York City. The summit is supposed to be the biggest UN event in years, maybe even since its founding way back in 1945. Although in recent years, the World Organization has focused on selling the global public the climate-change bill of goods, it now appears to be bringing back an old agenda: establishing a monopoly on force.

California bill will mandate all new cars have device to 'automatically limit' speed to 10 mph over limit. A California Democratic lawmaker has introduced a bill he calls "groundbreaking" that would require all new cars sold in the Golden State to be equipped with a device preventing them from traveling more than 10 mph over the speed limit. CA State Senator Scott Wiener, a Democrat from San Francisco, introduced the Speeding and Fatality Emergency Reduction on California Streets Package this week that includes a provision that would require "new vehicles sold in California" to "install speed governors, smart devices that automatically limit the vehicle's speed to 10 miles above the legal limit." "These changes are a head-on attempt to tackle vehicle fatalities, which are surging across the U.S.—and especially in California—amid a rise in reckless driving since the onset of the pandemic," a press release from Wiener's office explained.

'The dawn of the aquatic age has begun!' Silicon Valley billionaires investing in floating cities in international waters where they can avoid regulations and taxes. Billionaires are well-known for buying nuclear bunkers and remote properties in hopes of surviving a coming collapse - but some have set their sights on the open sea as a new home. Wealthy investors including Silicon Valley investor Peter Thiel have planned to launch 'floating cities' where they will be exempt from the laws that govern nations in the world, and potentially safe from disasters engulfing land-dwellers. The Seasteading Institute, backed initially by an investment from Thiel, has spent 15 years researching the idea of permanent floating communities living in international water, free from regulation. In 2022, company Ocean Builders - backed by Bitcoin trader Chad Elwartowski - unveiled 'the Seapod', a floating building with 733 square feet of living space, which stands on a pole seven feet above the water.

SPEED AMSTERDAM: Dutch Mayor Wants to Decriminalize and Regulate Sale and Use of Cocaine, Calls War on Drugs 'Perverse and Counterproductive'. The societal turmoil is widespread in the western societies, and the Dutch capital, Amsterdam, is a clear example of that. Known for its pot-selling 'coffee-shops' and the 'liberal' Red-Light district, Amsterdam may take yet another step towards pushing its society to the very forefront of drug liberalization. In a somewhat stunning turn of events, Amsterdam Mayor Femke Halsema has called for 'the regulation of the sale and use of cocaine' to 'undermine the economics of criminal enterprises that she said are racking up billions in profit'.

FBI, Soros, And Secret Police In Vast Censorship Conspiracy In Brazil. Months-long investigation reveals global effort to counter populism in violation of the Latin American nation's constitution. The U.S. government's Federal Bureau of Investigation (FBI), George Soros, and the Supreme Court of Brazil claim to be defenders of free speech and democracy. The mission of the FBI is to uphold the U.S. Constitution, whose First Amendment prohibits government limits on freedom of speech. Soros, and his son Alex, who runs his philanthropic foundation, claim to want "open societies," where people are free to express their views. And the Supreme Court of Brazil claims to uphold the Brazilian Constitution's commitment to freedom of expression. But now, a months-long investigation reveals that: the FBI has helped Brazil censor its citizens; the Soroses' "Open Society Foundation" is spending heavily to promote censorship in Brazil; and Brazil has a secret judicial police force that exists specifically to spy upon and censor people deemed to be spreading false information. Together, the FBI, the Soroses, and the Supreme Court of Brazil are engaged in a direct assault on the free speech protections of both the Brazilian and U.S. Constitutions.

Biden to Name Dirty John Podesta as New Climate Czar to Replace John Kerry. Joe Biden will name Clintonite John Podesta as the new Climate Envoy to replace John Kerry, according to the Washington Post. Last summer the Biden Regime trotted out Podesta, a current Biden advisor and former Chief of Staff to Bill Clinton, to lecture us on 'climate change.' Podesta admitted Joe Biden's so-called 'Inflation Reduction Act' is actually the Marxist green new deal repackaged with a different name. "We have to cut the carbon pollution that's driving the climate crisis and that's what the 'Inflation Reduction Act' is all about!" Podesta said last August. Earlier this month it was reported that John Kerry will step down as Joe Biden's Climate Envoy this winter or early spring. Kerry, 80, was appointed as Joe Biden's Climate Czar in November 2020 during the transition. John Kerry, the private-jet-setting hypocrite, operated in secret for three years.

Biden Regime Freezes All Natural Gas Projects, Citing Alleged Climate Change Crisis and Recent Catastrophic Weather Events — Trump Campaign Responds. Joe Biden is destroying this country from within. On Friday, Joe Biden put a temporary hold on the approval of both pending and upcoming requests to export liquefied natural gas (LNG) from new projects, Reuters reported. This decision might postpone the determination on new facilities until after the election on November 5, including the CP2 facility proposed for the southwest coast of Louisiana. During this pause, the Department of Energy (DOE) will undertake an assessment to evaluate the "economic and ecological consequences" of proposed projects aimed at exporting LNG to Europe and Asia, regions currently experiencing high demand for this fuel.

Biden Set To Announce New LNG Export Ban After White House Met With Gen-Z Climate Warrior. Biden's climate czar dodges when asked how blocking natural gas projects will lower emissions. President Joe Biden's top climate aide dodged a direct question Friday about whether the administration's decision to pause approvals for proposed liquefied natural gas (LNG) export terminals will actually reduce emissions. White House National Climate Advisor Ali Zaidi danced around the question at a Friday briefing hours after Biden officially announced that the administration is halting approvals of new LNG export hubs while the Department of Energy (DOE) widens the scope of its reviews of the project to include climate impacts. The decision, widely celebrated by the environmentalist left, is likely to increase emissions while empowering countries including Russia and Qatar on the global LNG market, energy sector experts previously told the DCNF.

Good Grief, Seriously??? Smithsonian Links Ancient Roman Plagues to 'Climate Change'. Long before the industrial revolution and fossil fuels, "climate change" was wreaking havoc on the health of ancient Romans, Smithsonian magazine contends. Citing a study published in the journal Science Advances, Smithsonian underscores a correlation between cold, dry periods in ancient Rome and "devastating bouts of fatal illness" between 200 BC and 600 AD. Whereas Rome enjoyed stable weather from 200 to 100 BC, it later suffered "three very cold periods," all of which "line up with documented plagues," states Smithsonian writer Sarah Kuta.

PHARMA OVERLORDS: Moderna's online censorship agenda detailed in newly released documents. How did Moderna, a failing pharmaceutical startup that was on the verge of collapsing before the Wuhan coronavirus (COVID-19) "pandemic" conveniently arrived, go from that to becoming a \$100 billion company nearly overnight? The answer is simple: censorship. Newly released documents show that Moderna spearheaded an online censorship campaign designed to keep its mRNA (modRNA) injections for COVID in the "cure" distribution pipeline, despite widespread criticism and skepticism about its safety and effectiveness.

Megyn Kelly Speaks Out on Being Targeted by Moderna After Publicizing Her COVID Vaccine Side Effects. In a recent episode of her podcast, journalist Megyn Kelly revealed that pharmaceutical giant Moderna was upset with her for disclosing side effects she experienced after receiving the Moderna COVID-19 vaccine. The Gateway Pundit previously reported that Megyn Kelly opened up about facing a newly discovered autoimmune issue following vaccination. "I regret getting the vaccine even though I'm a 52-year-old woman because I don't think I needed it," Kelly said during her podcast last year. "I think I would have been fine. I had got COVID many times, and it was well past when the vaccine was doing what it was supposed to be doing," she added. Her concerns intensified after a routine physical examination revealed an autoimmune issue, a new development for Kelly. She recounted her conversation with a top rheumatologist in New York, who acknowledged a possible connection between her vaccination and the subsequent health issues. "For the first time, I tested positive for an autoimmune issue at my annual physical. And I went to the best rheumatologist in New York, and I asked her, do you think this could have to do with the fact that I got the damn booster and then got COVID within three weeks? And she said yes. Yes. I wasn't the only one she'd seen that with," said Kelly.

New Pentagon report predicts a new age of Covid Bioweapons and Brain Chip warfare. Opinion: The year is 2028, and a new and highly infectious coronavirus has struck the sailors of the U.S. Pacific Fleet stationed in the South China Sea. As the world grapples with this emerging pandemic, confusion runs rampant among officials at the CIA, CDC, and DOD, who bicker over the most effective response strategies. Meanwhile, China, seemingly immune to the novel virus, seizes the opportunity to launch a full-scale assault on Taiwan, capitalizing on the global chaos. While the World Health Organization praises China's successful social distancing measures, little do they know that the Chinese government had covertly vaccinated its military and essential workers under the guise of a standard COVID-19 booster campaign. This scenario, initially conceived by Pentagon researchers, may sound like science fiction, but military strategists believe that a "coronavirus bioweapon" may lurk on the horizon.

The Inventor of Lipid Nanoparticles Knew the mRNA Would Not Stay in Your Arm, but They Could Not Let The Public Know. For more than four decades, they have been aware that the lipid nanoparticles (LNPs) used in vaccines wouldn't remain confined to the injection site. In reality, this was never their intention. Their objective was for the 'vaccine' to circulate throughout the body, allowing some of it to reach the lymph nodes. This way, dendritic cells at the lymph nodes were more likely to correctly interpret the mRNA instructions.

California Homeless People Found Living in Massive, Filthy Caves 20 Feet Below Ground – Drugs and Weapons Reportedly Discovered. The homeless crisis in California is so awful that people are undertaking extreme and unusual measures to obtain shelter thanks to the state's Democrats and Biden's garbage economy. As CBS News Sacramento reported Wednesday, multiple filthy homeless caves tucked along the Tuolumne were discovered and cleared out by volunteer groups and the Modesto Police Department last weekend. The caves were found across the street from Crater Avenue, roughly 20 feet below street level and are accessible via makeshift stairs built into the hillside. The Modesto Police released a statement on Facebook revealing that 7,600 pounds of trash were removed. The area has been ridden with illegal camps for a while.

Bank of America, Chase, Capital One, US Bank and PNC and are among ten national banks to shutter 41 locations in a single week. Over the course of just one week, American banks said they would close 41 branches around the country. Bank of America, Chase, Capital One, US Bank and PNC are among those axing costly brick-and-mortar locations - as the industry increasingly offers services online. PNC said in a filing to its regulator it would close ten branches across six states, including Georgia, Maryland, Michigan, Pennsylvania, Texas and Wisconsin. Meanwhile, in the week starting January 15, US Bank said it would shut nine branches and Bank of America would shut eight. First National Bank of Pennsylvania and Huntington each notified the Office of the Comptroller of the Currency (OCC) that it would close four. Capital One, which also said it would shut four branches the week prior, notified the regulator of another two scheduled closures, both in Virginia. A handful of other banks said they would close branches. Fifth Third, Chase, KeyBank and Woodforest also announced closures that week.

Bankruptcies are surging among Gen X, and Millennials. An uptick in bankruptcy assistance among Generation X and Millennials signals a burgeoning debt crisis, overshadowing recent economic optimism, legal experts told Newsweek. In contrast to recently issued positive economic data showing a 29 percent surge in consumer confidence since November, LegalShield's December Consumer Stress Legal Index (CSLI) documents a relentless rise in financial duress, reaching a three-year peak as consumers seek legal help for bankruptcy and other legal assistance. The data, drawn from over 35 million legal service requests, is forecasting a dip in that consumer confidence, and exposes a groundswell of fiscal challenges. The trend, disproportionately impacting younger generations, points to a latent economic strain that macroeconomic figures may not fully capture, which hints at a potential credit reckoning on the horizon.

Portland Democrats slammed for telling people where they can and can't smoke while allowing open-air drug taking. Portland Democrats are being criticized for enforcing strict regulations on where people can and cannot smoke, while tolerating open-air drug use across the city. Despite passing key ordinances within the past year to tackle drug use and homelessness, the city faces impediments as it deals with addiction and unsanctioned camps. Portland City Council unanimously approved in September an ordinance prohibiting public drug use, yet implementation hinges on state legislators passing supporting measures. In response to the ordinance, the Oregon Law Center filed a lawsuit, alleging the restrictions violate the state constitution and existing laws - resulting in a circuit court judge blocking the city from enforcing the rule. Meanwhile in 2015, legislation passed banning people from using e-cigarettes and other inhalant delivery systems in workplaces, restaurants, bars and other indoor public places - with no exemptions. Commissioner Mingus Mapps called the situation 'insane,' highlighting the city's ability to regulate cigarette smoking but lacking authority over drug use.

You Just Cant Make This Stuff Up: Buttigieg Says He Was "Shocked" By How Controversial it Was When He Talked About How Highways are Racist. Small town mayor-turned-Transportation Secretary Pete Buttigieg said he was "shocked by how controversial it was" when he talked about how highways are "racist." Buttigieg, one of the most incompetent people serving in Biden's Cabinet (and that's saying a lot), previously appeared on MSNBC's Politics Nation to discuss racist roads with Racist host Al Sharpton. Buttigieg told Al Sharpton that traffic fatalities happen because of racism and discrimination. "We've got a crisis when it comes to roadway fatalities in America," Buttigieg said. "We lose about 40,000 people every year. It's a level that is comparable to gun violence - and we see a lot of racial disparities. Black and brown Americans and tribal citizens and rural residents are much more likely to lose their lives

Rep. Byron Donalds (R-FL) said in a letter to SEC chairman Gary Gensler that its investigation of free speech platform Rumble may be influencing the site's role in the 2024 presidential election. Donalds wrote to Securities and Exchange Commission (SEC) chairman Gensler, in a letter obtained by Breitbart News (see below), as the agency confirmed to Wired that the financial regulator has launched an investigation into Rumble. Activist investor group Culper Research released a report in April 2023 alleging that Rumble inflated its monthly active user (MAU) count, a key metric for a social media company. Culper Research has an active short position in Rumble, meaning that the company could profit if Rumble's stock were to decrease. Rumble CEO Chris Pavlovski has vehemently denied any wrongdoing and has accused the SEC of colluding with Culper Research. Donalds said that the timing of this investigation into "reeks" of "political interference":

"Off-The-Rails Psychologically" – The Democratic Party Will Do Anything Avert Losing Control Of Govt. I'm sure you can see exactly where all this is going. By all this, I refer to the cortège of disasters orchestrated by "Joe Biden" and associates — with help from a power-crazed globalist cabal — hauling our country at a gallop now to the graveyard of empires. Is there any question that they are out to wreck Western Civ? And speeding up the action because too many actual citizens are rising to oppose their degenerate wickedness?

We're all Texans now: Now that President Donald Trump has (for all intents and purposes) wrapped up the GOP presidential nomination for the third time, Democrats are dead – and they know it. If this next election is about a fair, honest, popular vote, Democrats lose by a landslide in November. We have an evil "enemy from within" inside the White House with President Joe Biden (and his boss, Barack Obama). And they can see their reign of terror is ending. They're desperate to hold onto power, but they see it slipping away. They have two choices now: Either try to win the election by rigging and cheating at unimaginable levels – far worse than in 2020. Or burn the country down on the way out the door so that Trump inherits a disaster – a country on fire, divided like never before, on the verge of collapse, on the verge of civil war, on the verge of World War III and in the throes of a massive foreign invasion overwhelming our economy, schools and health care system.

Joe Biden cuts off LNG exports in latest act of economic sabotage against Texas and Western European countries. This is a truly incredible development. Joe Biden has just halted all new LNG exports from the United States (<https://www.rt.com/business/591337-biden-halts-lng-exports/>), and this comes after the US Navy destroyed the Nord Stream pipelines feeding energy to Europe. In addition, Qatar has just announced a halting of LNG exports due to the risk of ships being damaged in the conflict between the Yemen rebels and the US Navy in the Red Sea.

Thank You Trey: "Twitter Files" Reporter Matt Taibbi Uncovers Plot To Stop Trump, Democracy Be Damned. In a pair of articles on his Racket News website, "Twitter Files" reporter Matt Taibbi uncovers corrupt, systematic, and longstanding efforts by leading Democrats to stop the election of Donald J. Trump in 2024 or, at a minimum, cripple his presidency before it can get off the ground. Taibbi, who, it should be noted, was once a darling of the progressive left while working as a columnist for the New York Press and Rolling Stone, has in recent years become one of the left's top critics as an independent investigative journalist. He and fellow disaffected liberal Michael Shellenberger have broken major stories about the federal government's involvement in online censorship on issues like pandemic lockdown policies and the 2020 election as part of their "Twitter Files" coverage, and Taibbi has become a leading detractor of the corporate media and the political establishment in both parties. In his most recent work, a 4,200 word article that should have every American citizen concerned about the future of free and fair elections in the United States, Taibbi writes, "The 2024 presidential race increasingly looks like it will be decided by lawyers, not voters, as Democrats unveil plans for America's first lawfare election... To 'protect democracy,' democracy is already being canceled. We just haven't admitted the implications of this to ourselves yet."

Ilhan Omar Speech on Representing Somalia in Congress Goes Viral With Calls to Expel Her From the House. Somali refugee Rep. Ilhan Omar (D-MN) gave a speech to the Somali community in Minnesota on Saturday that has gone viral thanks to English translation subtitles. The translations have Omar saying she and her fellow Somalis are Somali first and Muslim second—with no mention of being American. Omar also said she represents Somalia in Congress and told the audience that they control the U.S. government's Somalia policy. Outraged Americans called for Omar's expulsion from the House of Representatives.

Ilhan Omar Needs To Be Expelled From Congress & Investigated As An Undeclared Foreign Agent. Somali-born Congresswoman Ilhan Omar accidentally outed herself as an undeclared foreign agent while speaking with her co-ethnics about the Memorandum of Understanding (MoU) between Ethiopia and Somaliland. The English translation can be watched here at the Somaliland Deputy Foreign Minister's X account. Omar didn't refute the translation but only its "interpretation" of her warmongering and admitting to being a foreign agent.

Report: Squad Member Defund the Police Cori Bush Under Criminal Investigation by DOJ. Rep. Cori Bush (D-MO), a member of the far-left "Squad" in Congress, is reportedly under investigation by the Department of Justice (DOJ) for allegedly misusing government funds meant for private security. Punchbowl News first reported that the DOJ is conducting the criminal probe into Bush. The outlet cited six sources for the allegation. On Monday, the Justice Department subpoenaed the House Sergeant at Arms for records related to the misuse of federal security money.

Security For Me But Not For Thee: Defund the Police Squad member and progressive Democratic Rep. Cori Bush denied she misused funds for private security and blamed 'right-wing organizations' for spurring the Justice Department investigation into her campaign's spending. The Missouri lawmaker, who married one of her bodyguards, has spent more than \$750,000 on security since she was elected in 2020 out of her campaign account. 'I can confirm that the Department of Justice is reviewing my campaign's spending on security services. We are fully cooperating in this investigation,' she said in a statement. 'Since before I was sworn into office, I have endured relentless threats to my physical safety and life,' she told reporters on the House steps. Squad Members Rashida Tlaib and Cori Bush Are Only Congressmen to Vote Against Bill Banning Hamas Terrorists Who Took Part in October 7 Terror Attack From U.S.. Squad members Rep. Rashida Tlaib (D-MI) and Rep. Cori Bush (D-MO) were the only two Congressmen to vote against a bill that bars Hamas and other terrorists who took part in the October 7 jihadist terror attack on Israel from entry into the United States. The bill passed 422 to 2 with one Democrat voting present: Rep. Delia Ramirez (IL). Other Squad members voted for the bill which was introduced by Rep. Tom McClintock (R-CA). In a statement, Tlaib, the only Palestinian-American in Congress, said, she voted against the bill because it is "redundant" and that it was a "GOP messaging bill being used to incite anti-Arab, anti-Palestinian, and anti-Muslim hatred that makes communities like ours unsafe."

U.S. Stops Funding UNRWA After Staff Involved in Hamas October 7 Terrorist Attack. The U.N. Relief and Works Agency (UNRWA), an organization for decades facing accusations of fueling radical Islam and antisemitism in Gaza, announced Friday it was suspending some staff over allegations they joined the horrific Oct. 7 Hamas terrorist attacks on Israel. U.N. chief Antonio Guterres "is horrified" by the accusations and an "urgent and comprehensive independent review of UNRWA will be conducted", said his spokesman Stephane Dujarric. A statement setting out the move was issued by Philippe Lazzarini, UNRWA Commissioner-General, declaring:

Why are European Governments Urging Citizens to Stockpile Prescription Drugs? The question of whether or not you should be prepared for prescription drug shortages is not an issue that has received much coverage here in the U.S., nor is it an issue the Biden administration seems at all concerned about. In Europe, however, the issue is not just getting attention from the media, some European governments are actually encouraging citizens to stockpile prescription drugs. From Politico's Europe edition, Adverts across Sweden tell patients with chronic diseases to make sure they have at least a month's supply of medicines at home. "Self-preparedness is part of society's work to secure patients' access to medicines," the country's Board of Health and Welfare states online. The campaign is part of Sweden's bid to prevent a repeat of the dangerous drug shortages faced across Europe last winter.

Another Biden Diplomacy Fail: Venezuela Kills Presidential Election After Clinching Sanctions Relief. Venezuelan dictator Nicolás Maduro declared on Thursday that the deal signed between his socialist regime and the Venezuelan “opposition” to hold a “free and fair” 2024 presidential election was “mortally wounded,” implying the cancellation of the election. The agreements, signed in Barbados in October through the mediation of U.S. Secretary of State Antony Blinken, committed Maduro to taking steps towards holding a “free and fair” presidential election in the second half of 2024. Some of the steps included the lifting of bans on opposition politicians from running for office — including a ban on María Corina Machado, Maduro’s presumptive rival in the hypothetical electoral event. Maduro never lifted the ban and never fixed a date for the election at the time he declared the plan dead.

Venezuelan Communist Dictator Prevents Top Opposition Candidate from Running in Election – Just Like the Democrats. The people of Venezuela are starving. They live in a country where they have no voice. They have watched their once wealthy nation, full of oil deposits, get taken over by communist dictators. They are living in a Marxist hell-hole. The only hope for nations when despot communists rule is to vote them out, but the communists own the elections. So in Venezuela today we see this. Opposition figures have tried everything to get a fair chance at defeating Maduro at the ballot box and at every turn they have been thwarted. Some were arrested and wound up in jail on trumped up charges. Others were simply told they weren’t allowed to run. The latest effort in this long series involves Maria Corina Machado, a candidate who supports free-markets instead of the black market socialist economy which has resulted in extreme inflation and more than 7 million Venezuelans fleeing the country to survive.

We're coming for EU: Furious farmers clash with riot cops, topple statues and surround Brussels HQ with a thousand tractors as they bring raging protest to the doorstep of the European Union. Furious farmers have thrown manure and flaming missiles at riot cops outside the European Union's Brussels headquarters today, as shops in Belgium admitted they may soon have empty shelves due to the protests. Convoys with hundreds of angry agricultural workers driving heavy-duty tractors blockaded the HQ, hell-bent on having their complaints about excessive costs, climate policies and bureaucracy heard by the bloc's leaders. After warming themselves at burning piles of pallets, the farmers this morning mounted their vehicles and entered the Belgian capital to the rumble of engines, fireworks and blaring horns, in the culmination of weeks of protests in Europe. The square in front of the EU Parliament became filled with tractors and descended into chaos as farmers set up bonfires and toppled statues.

Iranian President Ebrahim Raisi dismissed the United Nations as an irrelevant and unhelpful organization in remarks alongside Islamist Turkish President Recep Tayyip Erdogan, demanding "reform" to make the U.N. more favorable to Tehran's pro-jihadist ideology. Raisi, in Ankara to sign a package of bilateral trade and diplomacy deals, railed that the United Nations had not done enough to prevent Israel from protecting itself from the Iran-funded Sunni terrorist organization Hamas and called support for Hamas and Palestinian terrorism "the top issue of humanity," according to the Iranian state propaganda outlet PressTV. UPDATE: The List of Governors Rallying Behind Abbott Grows. As Texas Governor Greg Abbott continues to "hold the line" against President Joe Biden and his administration's attempts to deny the Lone Star State the right to defend itself from the illegal immigrant invasion declared by Abbott, the leaders of other states facing the effects of Biden's border crisis are standing with him. Abbott has declared that he will not back down in the face of mounting legal harassment from the federal government and defiantly ordered the installation of more razor wire.

South Dakota Governor Kristi Noem: "If Greg Abbott Needs More Razor Wire, I'll Load It into a Pickup, Myself". Governor Kristi Noem joined FOX News to discuss the Texas Governor's battle with the Biden regime to protect the people of Texas. The Biden regime on Thursday warned Greg Abbott and Texas lawmakers that they have until Thursday to take down their razor wire and allow their state to be invaded by millions of illegal aliens. This is the Democrat position. On Thursday, Kristi Noem told FOX News host Martha MacCallum, "If Greg Abbott needs more razor wire, I'll load it into a pickup, myself!"

Governor Greg Abbott to Tucker: We are 'Prepared' for Conflict with Biden Regime Over Border – 10 States have Sent their National Guards to Defend Texas Against Invasion. Texas Governor Greg Abbott told Tucker Carlson Friday afternoon that he is fully prepared for conflict with federal authorities and that states have already sent their National Guards and other law enforcement to defend the border. Tucker started the interview by asking Abbott what he would do if the Regime federalized the Texas National Guard. He responded they would attempt to defy the Regime and continue building barriers, including razor wire, and expand the denial of illegal entry into the state of Texas. He went on to tell Tucker that 10 of the 25 GOP-led states pledging to defend Texas have sent their national guards to the Texas border, and more will follow soon. He did not specify which states had deployed forces. Abbott: "There have been about ten so far that have sent National Guard or other law enforcement. They are now joined together with us, and this is a fight for the future of America." I believe they will all be in on this effort."

Oklahoma Gov. Stitt: States Can Defy if SCOTUS 'Gets Something Wrong'. Governor Kevin Stitt (R-OK) said Friday on CNN's "The Lead" that he agreed with Gov. Greg Abbott (R-TX) defying the decision of the U.S. Supreme Court that federal agents may remove razor wire at the southern border. Anchor Jake Tapper said, "Twenty-five Republican governors from across the country have signed a joint statement supporting the Texas governor as he thumbs his nose at the highest court in the land." He asked, "What Governor Abbott is doing and what you and the other governors who have written this letter are supporting is defying the U.S. Supreme Court. And I wonder if you have any concerns that this opens the door for, let's say Democratic governors to defy U.S. Supreme Court decisions with which they disagree, let's say on gun rights because they think it's in the interest of public safety even if the Supreme Court says what they want to do is unconstitutional?"

Stitt said, "Well, we all agree that the Constitution is the supreme law of the land. And if the Supreme Court gets something wrong for example, if they try to ban and say that we didn't have a Second Amendment right to bear arms, I think the Constitution supersedes somebody in Washington, D.C. telling us, you know? And so I think Governor Abbott did a really good job of laying out, and declared an invasion based on Article 1 of the Constitution. The states have a right to defend themselves. The states created the federal government. The federal government did not create the states."

White House criticizes half the nation's governors for backing Texas as border standoff intensifies: Karine Jean-Pierre accuses Greg Abbott of stopping agents doing their jobs and won't say if Biden will federalize the National Guard. White House press secretary Karine Jean-Pierre on Friday criticized the 25 Republican governors who signed onto a letter saying that Texas Gov. Greg Abbott had the right to install razor wire to defend his state from illegal immigrants coming over the border.

Outrage: Biden holds America HOSTAGE while demanding ransom in form of BILLIONS more in "aid" for Ukraine, Israel. The Biden regime says it will only "secure" America's southern border if Congress agrees to pass a bipartisan bill to send more cash to Ukraine, Israel and Taiwan. The reason why the word "secure" is in quotes above is because, under Biden's concession plan, as many as 150,000 illegals will still be allowed to cross into the United States per month, which is hardly the sealed border that Republicans, especially in Texas, are demanding.

SICK: Texas Democrat Posts Tweet Seemingly Calling for Bombing American Citizens Who Support Texas Against the Biden Regime Over the Border – Conservatives Respond. A far-left Texas state legislator over the weekend posted a tweet suggesting the U.S. military would be justified in taking out Americans for daring to own guns and standing with Texas. X user @EndWokeness posted a tweet Friday listing the ten states with the most guns per capita. He noted they are all states backing Texas in their ongoing battle with the Biden regime over the border. Over half of the adults in these states own firearms. After seeing this post a day later, Texas Democrat State Rep. Gene Wu suggested the proper response was for the U.S. Military to drop bombs on these Americans. It's all fun and games... until someone eats a drone fired Hellfire missile. Wu's post also sounds eerily similar to the words of Joe Biden when speaking about those who oppose his regime. As the TGP previously reported, the so-called "president" has twice threatened millions of conservatives over the past year with fighter jets.

On Thursday's broadcast of MSNBC's "All In," U.S. Senate candidate Rep. Katie Porter (D-CA) criticized the prospective border as giving up "the long-standing obligation of this country to help people who are seeking — who are fleeing persecution" and also criticized Republicans for opposing the border deal. (Why? Basically it still left the border wide open)

Joe Biden Endorses Senate Deal to Expand Immigration: 'I Will Sign It'. President Joe Biden has endorsed a Senate deal to massively expand overall immigration to the United States negotiated by Sens. James Lankford (R-OK) and Chris Murphy (D-CT) among others, saying he "will sign it" if it is passed through Congress. Lankford and Murphy have negotiated a deal to expand legal immigration levels by an additional 50,000 green cards annually, expedite work permits for illegal aliens released into the nation's interior, provide taxpayer-funded lawyers to Unaccompanied Alien Children (UACs), and allow up to 35,000 illegal aliens to arrive at the border every week before imposing border controls, among other things. Biden announced his endorsement of the deal late Friday evening.

LOL, And It Begins: Oklahoma GOP Passes Resolution to Condemn and Censure Sen. James Lankford for Outrageous Border Deal. Tensions within the Oklahoma GOP have reached a boiling point as the state party's leadership passed a resolution on Saturday to condemn U.S. Senator James Lankford for his involvement in an outrageous border security deal with Democrats. The resolution, passed with immediate effect, states that the party will withhold all support for Senator Lankford until he ceases his involvement with the proposed legislation.

Bill Melugin: Illegals from China, Turkey and India Cross Border in San Diego County. Joe Biden's America. Footage provided by Fox News reporter Bill Melugin showed two SUVs dropping off illegals at the southern border in Jacumba, California (East San Diego County) on Monday. The group consisted of people from China, Turkey and India. The illegals walked around the border wall into the US without hesitation. Jacumba, which is about 75 miles east of San Diego, has been a hangout for thousands of illegals after crossing the border. The high desert has been a drop-off location for smugglers for illegals to live in makeshift camps. The group Border Kindness, which is a non-governmental organization (NGO) that helps provide resources for illegals, has provided food and water in areas where terrain is difficult to traverse in the San Diego mountains.

Official: We're Considering Expanding Asylum Opportunities to Deal with Influx of Venezuelan Migrants. During a portion of an interview with ABC News aired on Wednesday's edition of "Nightline," Deputy Chief of Mission for the U.S. Embassy in Colombia Brendan O'Brien stated that increasing legal pathways, including potentially increasing "opportunities for asylum into the United States" is one solution to the influx of Venezuelan migrants being discussed by the Biden administration. O'Brien said, "We have to give credit to countries like Colombia. They have given temporary protected status to more than 2.5 million Venezuelans. They are providing health care. They are providing education. So, that is a part of the solution, the integration of migrants into these countries throughout Latin America. It's a regional approach, and we need to support it."

Shocking moment boat full of migrants arrives at San Diego's famed La Jolla Beach before sprinting into neighborhood where average home costs \$2.2M: City saw more than 43,000 migrants arrive in 3 months. More than 20 migrants were filmed storming the beach on Wednesday morning and disappearing into the southern California enclave, where homes go for a median price of \$2.2million. The footage shows the migrants arriving on the shore on some sort of boat, before they take off running into the neighborhood in San Diego, the largest city on the Mexican border. More than 42,000 asylum seekers were released in San Diego from October through December, 2023 - an average of 637 a day, as reported by The San Diego Union-Tribune. That number does not include migrants who cross illegally, like those seen landing on the La Jolla beach. The county has already spent \$3million caring for the asylum seekers, and has allocated another \$3million.

Frustrated Chicago Democrat calls for Windy City's sanctuary city status to be scrapped because funds for low-income locals are being 'divested' into worsening migrant crisis. A Democrat who successfully sued Chicago to block a local park being turned into a migrant shelter wants the city's sanctuary status revoked. Cata Truss, a government employee in the Chicago neighborhood of Austin, complained too much money was being spent on immigrants. Chicago is struggling to care for more than 34,000 asylum-seekers bussed in from the border by Texas Governor Greg Abbott over the past 18 months.

The city has spent \$156 million on the crisis and still has 14,200 migrants in its 28 shelters, and is fighting with the state of Illinois about where to build more. Shelters in converted warehouses were filled to the brim with new arrivals living in poor conditions, leading to the city commandeering other venues.

Outrage as Massachusetts Dem' governor closes cherished sports center in majority-black Boston suburb for FOUR MONTHS so it can be used to house migrants. A deprived Boston community has been left 'on fire' after the governor of Massachusetts requisitioned a vital rec center to house the surge of migrants arriving in the city. Democrat Maura Healey was accused of treating the Roxbury neighborhood 'like garbage' after she locked residents out of the Melnea A. Cass Recreational Complex with less than 48 hours notice. She insisted it was needed to house the new arrivals, dozens of whom have been sleeping rough in the city's airport for months. But residents in the majority-black neighborhood demanded she explain why their cherished facilities had been chosen to take the hit. 'You're really putting us in a bad, bad situation,' resident Rodney Singleton told her at a public meeting, 'and it's not fair.'

Denver becoming overwhelmed after 40,000 spike in migrant population. Denver, Colorado's capital with over 700,000 residents, has become the latest city inundated with over 40,000 migrants as a result of the ongoing border crisis. The sanctuary city has been struggling to stretch its limited resources to support the growing number of migrants in the city. Texas has transported thousands of migrants to sanctuary cities like Denver, to showcase the problems border states face when migrants flood their cities. With overcrowded shelters and overrun hospitals, Denver state officials have begun enforcing a limit on the amount of time that migrants can stay in state-provided rooms to accommodate the daily influx of individuals, according to a report from NBC News.

Sanctuary City of Denver to Begin Limiting Amount of Time Illegal Immigrants Can Stay in Shelters. The supposed 'sanctuary city' of Denver, Colorado, is going to start limiting the amount of time that illegal border crossers can spend in shelters. Like many blue cities, Denver is learning that city resources are not infinite and that a community can be quickly overwhelmed when an army of people suddenly appears in town. They are already shipping people to other places. One has to wonder how the city is going to enforce this policy.

Democrats compare Trump to HITLER for his border policies that include 'alligator moats' and 'bombing Mexico' in wild Mayorkas impeachment hearing. Democrats angrily hit back at the GOP-led impeachment during the markup, trying to tie their hardline immigration policies to a dictatorship. Democrat Rep. Garcia went further, likening former President Donald Trump to Hitler, because he 'speaks about immigrants with the same rhetoric that Hitler claiming that immigrants like me and my family and they 'pollute the blood of this country.' 'He wants chaos,' Garcia added, saying the Trump and 'MAGA' border security plan includes 'alligator moats, bombing northern Mexico, shooting migrants in the legs, and electrifying the fence and putting spikes.'

Venezuela threatens to CANCEL crucial deportation flights if Biden reimposes oil sanctions - sparking fears border crossings could soar further amid growing migrant crisis. Venezuela has threatened to ban deportation flights from the US in response to the White House's decision to reimpose oil and gas sanctions on the bankrupt socialist nation. The Biden administration began deporting Venezuelans on October 18 for the first time in years after the Nicolas Maduro regime made a secret deal with the US that saw the dictator pledge to allow free elections next year in exchange for sanctions relief. The restarting of deportations saw illegal border crossings by Venezuelans drop as much as 74 percent in October. It came at a crucial time, as the number of Venezuelans crossing the US-Mexico border had reached a record high and replaced Mexicans as the largest nationality appearing at the border in September, 2023. However, Maduro broke the agreement with the White House as soon as it was signed in Barbados, quickly moving to jail aides of his main political opponent Maria Corina Machado, who he has now barred from running in next year's presidential elections. Biden officials had said they would reimpose sanctions if Maduro did not follow the agreement, and on Monday Bloomberg reported the White House will allow the six-month sanctions suspension to expire in April.

Three Illegal Aliens Charged with Armed Robbery of Massachusetts Butcher Shop. Three illegal aliens, two got-aways and one who was released into the United States, have been charged with armed robbery of a butcher shop in Milford, Massachusetts. Illegal aliens Daniel Generoso, 26 years old, from Brazil; Lucas Morreira Fontenelle, 21 years old, from Brazil; and Jonatha De Araujo Lima, 19 years old, also from Brazil, were arrested this month by the Milford Police Department and charged with armed robbery after allegedly holding up the Aroma Brazil butcher shop. Details from the Immigration and Customs Enforcement (ICE), published in the Boston Herald, reveal that Morreira Fontenelle was arrested in March 2023 in Framingham, Massachusetts, for assault and battery and was convicted in December 2023. ICE placed a detainer on Morreira Fontenelle, requesting custody of him, but Massachusetts' sanctuary state policy helped free him back into the community instead.

Adams: We Need Deportation of Criminal Migrants, 'They're Doing Violent Acts'. On Wednesday's broadcast of New York PIX11's "PIX11 News at 5," New York City Mayor Eric Adams (D) reacted to the attack on two police officers in New York by stating that there are some migrants "who are breaking our laws, we need to reexamine the laws that don't allow us to deport them, because they're doing violent acts. We cannot create an atmosphere where you're going to bring violence into our city." Co-host Kori Chambers asked, "[W]hat should New Yorkers make of the fact that most of the people involved in this attack are migrants?" Adams answered, "Well, listen, I've been saying this over and over again, the national government must do its job. This is not a responsibility that should be placed in the lap of all of these big cities. We're seeing what's taking place in Chicago and Denver and Boston. All across our country, big cities are having to do the national government's job. And those migrants who are here because they want to be part of the American Dream, that's — we say yes to that. But those who are breaking our laws, we need to reexamine the laws that don't allow us to deport them, because they're doing violent acts. We cannot create an atmosphere where you're going to bring violence into our city. But the overwhelming number of migrants and asylum seekers are waiting to have work authorization or their determination, and we need to be clear on that."

New York May Screw 4,000 Legal Residents Out Of A Job – So Migrants Can Have Them. Amid an influx of over 170,000 migrants bussed from southern border states ill-equipped to handle them, New York Gov. Kathy Hochul (D) has proposed a \$2.4 billion plan to help provide for them. She's also called on the Biden administration to speed up work permits, and boost federal aid for the migrants – arguing that letting them work would help the state's economy and mitigate the humanitarian crisis. Johnson Sets Vote on Tax Bill Conservatives Call 'Trojan Horse to Expand Welfare' for Illegal Aliens. Speaker Mike Johnson (R-LA) is rushing through a tax bill unveiled days ago over significant policy objections from both conservative and centrist factions of the Republican Party. Conservatives have spoken out against provisions in the bill they see as handouts to illegal immigrants, particularly an expansion of the Child Tax Credit without language requiring the parent to have a Social Security number. They argue the expansion would serve as an additional powerful migration pull, even as migrant encounters at the border reach record highs under President Joe Biden.

2nd Timothy 3:1- 5 But know this, in the last days "perilous times" will come. 2 For men will be lovers of themselves, lovers of money, boasters, proud, blasphemers, disobedient to parents, unthankful, unholy, 3 unloving, unforgiving, slanderers, without self-control, brutal, despisers of good, 4 traitors, headstrong, haughty, lovers of pleasure rather than lovers of God, 5 having a form of godliness but denying its power. And from such people turn away.

Lunar New Year Catastrophe: Chinese Health Officials Warn of 'Severe Illness and Death' as Holiday Travel Could Spread Infections Globally. Will the next global spread-a-thon be upon us soon? The Chinese Lunar New Year has officially begun. Celebrated by many for the promise of spring and new beginnings, it's one of the most important holidays in China. And with it, comes the promise of Chinese citizens traveling across the globe. The "Chunyun," also known as the annual Lunar New Year Travel Rush, is a 40-day event where traveling will be at an all-time high. It's expected to bring an explosion of tourists going to new places, seeing new faces... and potentially bringing the threat of new viral outbreaks. That's right — we're expecting to see an influx of travel in and out of China for the next few weeks. In fact, the Chinese National Health Commission (NHC) warned press conference attendees that this massive travel event will likely result in elevated cases of Wuhan coronavirus and potentially higher cases of "severe illness and death." Hospitals in the United States are already seeing a rise in COVID, flu, and respiratory illness cases. Health experts suggest this potential "tripledemic" is cause for concern. In addition to seasonal flu, the new JN.1 coronavirus variant, and Respiratory Syncytial Virus (RSV) plaguing the country, there's an uptick in severe weather events. These often result in flooded roads, power outages, and limited access to resources.

Why Has The Number Of Measles Cases Been Rising So Rapidly All Over The World? Have you noticed that stories about measles have been popping up in the news a lot lately? At first I didn't pay much attention, but then I decided to look into what is going on, and I was quite alarmed by what I found. At one time measles was a disease that was on the verge of being totally defeated, but now it is back with a vengeance. According to the World Health Organization, the number of measles cases in Europe in 2023 was 45 times higher than it was in 2022.

<https://endoftheamericandream.com/why-has-the-number-of-measles-cases-suddenly-been-rising-so-rapidly-all-over-the-world/>

Measles is spreading in England and health authorities warn the outbreak could snowball. A serious outbreak of measles in England could grow to tens of thousands of cases, health experts there have warned, as Europe grapples with a spike in the highly contagious disease. The U.K. Health Security Agency said Friday that since October, there have been 216 confirmed cases and 103 probable cases in the West Midlands region, an urban part of England centered on the city of Birmingham, where around 80% of the cases were recorded. That's higher than last year's total of 209 measles cases and the 2022 tally of 53. Last year, the government warned that a measles outbreak in London could lead to between 40,000 and 160,000 cases there if the vaccination rate did not improve. The rate in England has been falling for years due to misinformation and declining community health budgets.

Syphilis numbers in America have now reached the highest since 1950. The U.S. syphilis epidemic isn't abating, with the rate of infectious cases rising 9% in 2022, according to a new federal government report on sexually transmitted diseases in adults. But there's some unexpected good news: The rate of new gonorrhea cases fell for the first time in a decade. It's not clear why infectious cases of syphilis rose 9% while gonorrhea dropped 9%, officials at the U.S. Centers for Disease Control and Prevention said, adding that it's too soon to know whether a new downward trend is emerging for the latter.

Deadly fungus that has a 20% kill rate more common in US than previously thought - and is cropping up in unexpected areas. A deadly fungus that kills up to one in five people it infects may be more common than previously thought, a study suggests. People catch the fungus behind blastomycosis by breathing in spores released by disturbed rotten wood or leaf litter, which can then take root in the lungs and spread to the skin, brain and spinal cord — causing deadly pneumonia and inflammation. Officials have previously suggested the disease is not common, and only track the infection in five states — mostly in the mid-West. But researchers at the Centers for Disease Control and Prevention (CDC) now suggest the opposite, after finding the fungus was more common in Vermont than in four of the five states where it is tracked.

Orkin: Chicago Ranks Number One Worst City in United States for Bed Bugs. Chicago is suffering from an infestation of creepy crawlies, the Orkin pest control company revealed Monday. In a press release, the company said it is the city's fourth year in a row to be named number one on its Top 50 Bed Bug Cities List: Chicago, New York, and Philadelphia hold onto the top three spots, ranking first, second and third, respectively for cities with most bed bugs. Greensboro, N.C. saw the largest jump this year, moving up twenty-five spots into the Top Twenty, with Milwaukee (#25) moving up the list by fifteen and Tampa (#31) moving up by ten. The bed bug cities list is based on treatment data from the metro areas where Orkin performed the most bed bug treatments from Dec. 1, 2022 – Nov. 30, 2023. The ranking includes both residential and commercial treatments.

New study claims Alzheimer's can spread between humans. Experts have found evidence of at least five people 'catching' the memory-robbing disorder from now-banned hormone treatments. The patients were among 1,848 people injected with growth hormones riddled with toxic amyloid-beta protein 'seeds', or prions, as children. All five came down with the same rare early-onset form of the devastating dementia condition. Others who received the same treatment are now considered 'at risk'.

San Bernardino officials will strip fruit from ALL trees across 2,000 homes in the county to eradicate invasive Oriental fruit fly. California officials are launching a large-scale fruit removal from trees to contain a widespread Oriental fruit fly infestation in the state. The California Department of Food and Agriculture plans to remove all kinds of fruits hanging on trees from 2,000 homes in the Redlands area of San Bernardino County. Workers are going door to door to remove fruit from all 'citrus trees and other fruit-producing plants' from now through February. The trees will 'remain in place', according to the CDFA. 'All host fruit for the Oriental fruit fly—citrus as well as a number of other fruits—will be removed from properties, with trees remaining in place,' the statement read. It is unclear the economic damage the infestation will cause in the state this year. Officials have asked residents and business owners not to pluck fruit from the trees themselves, move produce from their property or compost.

Bird flu is found in PENGUINS for the first time - sparking fears the deadly virus could spread among Antarctica's remaining colonies. A deadly type of bird flu has been found in gentoo penguins for the first time, sparking fears the virus could spread among Antarctica's remaining colonies. Researchers from the Scientific Committee on Antarctic Research (SCAR) found about 35 penguins dead in the Falkland Islands in the South Atlantic on 19 January. Samples taken from two of the dead penguins came back positive for the H5N1 avian influenza virus, said Ralph Vanstreels, a veterinarian who works with SCAR. The Falkland Islands government said that many more gentoos were dying under similar circumstances. As of 30 January, 'there are over 200 chicks dead alongside a handful of adults', said government spokesperson Sally Heathman.

Famine:

Matthew 24:7 For nation will rise against nation, and kingdom against kingdom. And there will be "famines" pestilences and earthquakes in various places.

The world faces a global hunger crisis of unprecedented proportions. In just two years, the number of people facing, or at risk of, acute food insecurity increased from 135 million in 53 countries pre-pandemic, to 345 million in 82 countries today. Fueled by conflict, climate shocks and COVID-19, the crisis is escalating as the war in Ukraine drives up the costs of food, fuel and fertilizers. Millions of people are struggling to put food on the table and are being driven closer to starvation in a storm of staggering proportions. (WEP)

Zephaniah 1:2-3 I will utterly consume all things from off the land, saith the Lord. I will consume man and beast; I will consume the fowls of the heaven, and the fishes of the sea, and the stumbling blocks with the wicked: and I will cut off man from off the land, saith the Lord.

Massive Fire Engulfs Feather Crest Farm Chicken Plant in Texas, Reportedly Following Large Explosion. A massive fire has engulfed Feather Crest Farms, located east of Kurten, Texas, in Brazos County, causing widespread alarm and prompting a massive response from multiple fire departments. The fire, which was reported just after 5 p.m. near Fickey Road east of Kurten, has become a major concern for local authorities and residents. At approximately 6:30 p.m., Bryan Texas Utilities announced that, in order to ensure the safety of firefighters responding to the fire, system operators would be temporarily disconnecting service for approximately 140 customers. At this time, there is no information available regarding potential injuries or the exact cause of the fire. Investigators are on scene to determine the origins of the blaze and whether the reported explosions played a role in its escalation.

Video included in article. New Amazon Prime cartoon BOLDLY mocks Christian theology. While “Hazbin Hotel” has received rave reviews on Rotten Tomatoes, Lauren Chen is less than impressed. The show centers around the daughter of Lucifer, who opens a rehabilitation hotel that offers a group of demons a chance at redemption — which supposedly will help reduce hell’s overpopulation. If the daughter, Charlie, isn’t successful in rehabilitating the demons, then they’ll be killed by angels. Chen, who watched the show, says she “essentially spent two hours watching animated furies discuss their sexual deviances.”

Planned Parenthood Targets Youth in Video About Virginity, Invents New Definition of Sex. Virginity is a social construct and everyone can create their own definition of what sex is, Planned Parenthood claims. Planned Parenthood — which notably profits from the killing of unborn babies via abortion — posted a video to X on Thursday aimed at young people, explaining its definition of virginity and telling young people that they can create their own definition of sex rather than adhere to reality. “Sex means different things to different people. Generally speaking, society tends to define sex in a very narrow way: penetration — penis into vagina. But where does that definition leave queer people? Or folks who can’t, or don’t, have penis-in-vagina sex, and choose to have oral, anal, or another type of sex instead?” the pink-clad woman in the video says. “Sex is defined by one thing and one thing only: You! Maybe that’s being fingered for the first time. Maybe it’s having anal sex. Maybe it’s having your first orgasm. Maybe it’s masturbating for the first time, or when you enthusiastically consent to sex,” she claimed. “That’s the beauty of your sexual journey. You’re in charge, and you can figure it out on your own terms. Choosing to have sex — when, what kind, where, and who with — is something that only you get to define,” she concluded.

Rock Band Mac Saturn Keyboardist Arrested on Child Pornography Charges. Evan Daniel Mercer, the keyboardist for the Detroit rock band Mac Saturn, was arrested on child pornography charges on Friday. Mercer was arrested on the same day Mac Saturn dropped its debut album, "Hard to Sell," and just hours before the band was set to perform a concert at The Fillmore Detroit in Michigan, according to a report by The Detroit News. The keyboardist is facing multiple charges, which include enticing a minor — who appears to be under the age of 10 — and producing and/or attempting to produce child pornography, according to documents obtained by The Messenger.

School district is investigating after two men filmed PORN inside Tulsa elementary library and then posted it online. A school district in Oklahoma is investigating after two men filmed PORN inside a Tulsa elementary library and then posted it online. The graphic footage was uploaded last week to X, formerly Twitter. The man who posted it said he was led into the school by an employee after hours looking for a 'fun break after work', Fox 23 reported. School officials said they have not been able to identify the individuals that appear in the social media post or confirm the location where the explicit act was conducted, or when the lewd act took place. But parents recognized the library, in particular a painting of dolphins hanging that is the school's mascot, and now they want someone to be held accountable. A letter was sent to Eisenhower International parents on Tuesday that described the graphic video as 'incredibly disturbing.'

Newlywed Iowa teacher Cassidy Kraus, 24, admits to having sex with three students between the ages of 13 and 14 just months after her wedding and now faces 33 years behind bars. A former Iowa teacher accused of sexually abusing three students between the ages of 13 and 14 has pleaded guilty to all six counts. Cassidy Kraus, 24, entered a guilty plea Monday. She was charged with one count of third-degree sexual abuse, two counts of lascivious acts with a child and three counts of dissemination and exhibition of obscene materials to minors. The Westside woman's arrest came in October, just months after her July wedding. She posted \$10,000 bond and was subsequently released from county jail. The charges stem from incidents that took place in 2022 and again in 2023, beginning with the middle school reading teacher sending 'obscene material' to three minors over Snapchat. According to the criminal complaint, Kraus 'knowingly disseminat[ed] obscene material' to one victim between January 2022 and May 2022 and to two other victims between January 2023 and June 2023.

Michigan woman aged SEVENTY NINE is charged with sending inappropriate Snapchats to underage child: Retired from school last year. A 79 year-old retired Michigan middle school worker faces four years in jail after being charged with sending sexual text messages and Snapchats to an underage child. Sue Ann Asch, 79, is accused of sending the messages to a child she knew in September 2023, the same month she retired as a paraprofessional education assistant at Kalkaska Public Schools. Michigan State Police said that Asch turned herself in after a felony warrant for her arrest was authorized on January 8. Investigators then seized multiple electronic devices from her home in West Street. The devices were sent to the state police computer crimes unit, and a report was submitted to the Kalkaska County Prosecutor's Office for review.

Son beheads his own father on YOUTUBE livestream. A man has been arrested after uploading a video of his father's severed head and calling for US federal employees to be "killed on site." Justin Mohn, 32, begins the YouTube video by staring at the camera. He then holds up what looks like a human head wrapped in a plastic bag. "This is the head of Mike Mohn, a federal employee of over 20 years and my father. He is now in hell for eternity as a traitor to his country," he continues. Police in Middletown Township, Pennsylvania said they arrested a suspect tied to the video just after 9 p.m. Tuesday night. Police confirmed to Levittownnow.com that a man in his 60s was found beheaded in the bathroom of a home in the 100 block of Upper Orchard Drive. They arrived just after 7 p.m. following reports of a possible death. A Facebook account for suspect Justin Mohn identifies him as an author and musician living in Colorado Springs, Colorado.

California mom, 38, is arrested for 'strangling four-year-old daughter to death' - as family members say she may have driven her body around for DAYS. A California mom has been arrested for allegedly strangling her four-year-old daughter to death. Maria Avalos, 38, is accused of murdering Mia, who was found unresponsive in a car with her in East Los Angeles Thursday. The little girl's family said cops told them Maria might have been driving around with her dead body in the vehicle for several days before she was found on Civic Center Way. They said she took off with her daughter early last week, and had not returned home or responded to messages since. 'She should've asked for help,' Mia's godmother, Noemi Lopez said. 'She should've called me. Now she's trying to call me from jail.' 'What does she want now? She already did her part, now let me do my part.'

Evil nanny drugged mom with dosed tea then kidnapped her three-day old baby boy leaving a note telling family not to be 'crybabies' before cops found the boy two days later alive in a bag on the street. Abdiel de Jesus Partido Chavez was kidnapped from the family home in the Renacimiento neighbourhood in Pachuca, in the Mexican state of Hidalgo, on Thursday, January 25. His nanny, named as Nelly Janeth Ramirez, on Wednesday night offered the baby's mother and grandmother a cup of tea, which allegedly contained a substance that made them fall asleep, according to El Pais. She then took the little boy after also stealing three mobile phones and cash. When the family woke up the next morning, the nanny and baby were gone. Ramirez reportedly left a threatening note at the home the baby's mother shared with her mother and uncle, telling them to not be 'crybabies' over the abduction. They called the police and a Mexico-wide AMBER alert was issued, with investigators urging people to contact them with information on the whereabouts of Ramirez and the baby. After the police received a tip-off for the baby, they went to a residence searching for Ramirez, but the nanny had fled before officers arrived on scene. The little boy was miraculously found alive and well in an abandoned bag in the streets of the Guadalupe neighbourhood two days later.

Two people are in custody after a newborn baby girl was found behind dumpsters at a Mississippi mobile home park last week, officials said. Marlid Susana Carballo, 27, and Arsidies Gomez, 27, are facing charges of conspiracy to commit a crime and false reporting of a crime, WREG reported on Saturday. The baby girl, who is around two or three weeks old, was found behind several dumpsters in the Grove of Cayce Mobile Home Park, which is about 35 miles southeast of Memphis, Tennessee, according to the Marshall County Sheriff's Office. "Three men were throwing away trash when they heard what they thought was a baby crying, authorities said. They found the baby in a car seat, wrapped in blankets," according to the report.

Oregon High School Coach Resigns After Biden Admin. Rules Forcing Schools to Allow Trans Athletes. A high school tennis coach has resigned after the Biden administration established new rules that force schools nationwide to allow boys to play as girls. Dave Brown, the coach for the Canby High School girl's varsity tennis team, cited Joe Biden's Title IX policy in his resignation announcement posted to Instagram, Fox News reported. "This week, I resigned from my position as the head girls varsity tennis coach at Canby High School.," he wrote in the post.

FACT CHECK: Biden claims Holocaust Remembrance Day is about "LGBTQ+". Proverbs 28:12 A ruler who listens to lies, All his ministers will be wicked. US President Joe Biden released a statement on Friday commemorating International Holocaust Remembrance Day. The statement noted that in addition to Jews, the Nazis targeted "LGBTQ+". **A quick fact check reveals that this statement is entirely inaccurate...along with several other statements the president made.** "We also grieve the Roma, Sinti, Slavs, people with disabilities, LGBTQI+ individuals, racial minorities and political dissidents who were abused or killed, and we honor the courage of survivors and the heroism of people who bravely stood up to the Nazis, risking everything to save innocent lives," the president continued. It is accurate to note that the European Romani and Sinti were targeted by Nazi efforts at ethnic cleansing. Their persecutions began in 1935 when they were included in the anti-Jewish Nuremberg Laws. Historians estimate that between 250,000 and 500,000 Romani and Sinti were killed by Nazis and their collaborators—25% to over 50% of the estimate of slightly fewer than 1 million Roma in Europe at the time.

In addition, about 200,000 people with disabilities were murdered by the Nazis between 1940 and 1945. But the president's statement concerning "LGBTQ+" is anachronistic and inaccurate. The Nazi regime did persecute homosexual men, arresting an estimated 100,000 gay men under Paragraph 175 of the German criminal code that banned sexual relations between men and convicting about 50%. Many of these men were persecuted because of their racial identity or for anti-Nazi activities rather than for their sexual preference. While an estimated 15,000 gay men were sent to concentration camps, the primary reason for their internment was almost always their ethnic identity. Gay Aryan men were persecuted at a much lower rate and with much less severity than gay men of other ethnicities. There are no records of persecution of lesbians in Nazi Germany as it did not violate the law.

Veterans Affairs Sued to Provide 'Gender-Affirming' Surgery to 163,000 Transgender Vets. The Transgender American Veterans Association filed a federal lawsuit this week demanding that the Department of Veterans Affairs foot the bill for their sex-change surgeries. The lawsuit, filed in the U.S. Court of Appeals for the Federal Circuit, follows a letter sent out by the TAVA on last November's 'Transgender Day of Remembrance' demanding that the VA start paying for the surgeries or face legal action. "Three years ago today, President Biden repealed the military's ban on transgender service members. Yet, when we return from service, we do not receive the same level of healthcare from the VA that other veterans do," said Rebekka Eshler, TAVA president, in a media release.

Man Who Identifies as 'Transgender' and His Lover Convicted of Gruesome Torture and Murder of San Francisco Man. Gerald Rowe, 52, and David "Angel" Anderson, 41, met with the victim, 23-year-old George Randall-Saldivar, for what is believed to have been a consensual sexual encounter on February 3, 2019. After the sexual encounter concluded, the transgender man confronted Saldivar with a machete and tied him up. "A noose was placed around the victim's neck with the attached rope tethered through a pulley device near the ceiling. The victim's hands were bound behind his back with zip ties, a strap, and duct tape. The victim was tortured for more than 4 hours in this position as he was screamed at, hit, punched, sodomized, assaulted with pliers, and a bag placed over his head," the San Francisco District Attorney's Office wrote in the criminal complaint, according to a report from local station KRON.

Republican Montana Gov Greg Gianforte defends state's decision to remove 14-year-old teen from her parents who disagreed with her wish to transition. Now, staunch Republican Gov Gianforte has doubled down on Montana's decision, saying that he followed 'state policy and law' in this 'tragic case.' He also named his second-in-command, Lieutenant Governor Kristen Juras, as the person who reviewed the case and made the final decision, rather than himself. Gianforte said he has asked Juras to 'continue monitoring' Jennifer's case as she now lives in a 'Youth Dynamics' group home in Montana and is in CPS's custody. He then vowed that he will continue to sign and pass laws which 'strengthen our families and protect Montana kids.'

'Gender ideology has torn our family apart': Montana family who lost custody of their 14-year-old daughter after refusing to let her transition to a boy reveals their torment. A Montana mom and dad who lost custody of their daughter after they refused to transition her gender have told DailyMail.com the ordeal 'has torn their family apart.' Krista Kolstad revealed the family's nightmare began when they received a call that their 14-year-old daughter Jennifer told friends at school that she wanted to commit suicide in August 2023. Later that night, Child Protective Services (CPS) went to the Kolstad's home in Glasgow to inspect the house and interview Jennifer, later determining that she needed to transition to get better. Krista, who is Jennifer's step mother, and the girl's biological father, Todd Kolstad, said Jennifer had a tough upbringing and several undiagnosed mental health concerns, including attention-seeking behavior and lying, which they believe caused the urge to transition and were overlooked by social services. Krista told DailyMail.com: 'It's been horrible... Our family unit will never be the same. Even if they returned our daughter to us now, you're not going to have the same family unit... it's created a lot of animosity on Jennifer's part towards us, she doesn't believe she has to listen to us as her parents anymore.' Mr Kolstad said: 'I love my daughter unconditionally, and only want her to refrain from making decisions until she has the maturity and life experiences to understand what the consequences are for her actions. It comes as a family in Indiana has asked the US Supreme Court to review their lost custody case. Jeremy and Mary Cox, who are evangelical Christians, lost custody of their son in June 2021 after they refused, for religious reasons, for him to start identifying as a girl.

Christian coffee shop in Colorado viciously harassed by LGBTQ Activists. The owner of a Christian coffee shop in Colorado said his business and ministry have continued to be under a barrage of attacks from communist and LGBTQ protesters who have reportedly incessantly sought the establishment's closure. Jamie Sanchez, founder of Recycle God's Love, joined CBN News last summer to discuss the chaos surrounding the Drip Cafe, a coffee shop he launched to further his mission — through affiliated ministry Project Revive — of helping the homeless through employment and connections to much-needed resources. "The Drip Cafe is basically an idea from our project where we're helping homeless people get out of homelessness, to break the chains that are holding them down with homelessness," he said in a recent follow-up interview.

Radical Leftists Threaten to 'Bird Dog' Conservatives at Home, Church. Radical leftists plotting to stop former President Donald Trump from winning re-election in 2024 recently came to Washington, DC, to stage a rally and intimidate staffers for a conservative think tank working on plans to join his prospective administration should Trump win. The rally took place steps away from the Capitol in front of the main office of the Heritage Foundation, which has been working on "Project 2025," a plan to staff a prospective Republican administration as well as counter the left's influence in federal government by recruiting more conservative employees. One of the activists speaking at the rally on Saturday was captured on video threatening to harass staffers at their homes and churches. "We need to go find out where they live, where they go to church, who they hang around with, and bird dog they asses." Cheering and a reply of "Hell yeah!" could be heard in the video.

Four-Year-Old Boy Admitted into Church of England School as a Girl, Flashed 'Their Willy' at Female Students. A Church of England school reportedly allowed a four-year-old boy to join as a girl while hiding his biological sex from other students. According to a report from The Telegraph, a Church of England primary school in the south of England allowed the boy to join the school as a girl three years ago when he was just four years old. A parent of a girl at the school told the broadsheet that her daughter had become "distraught" after she found out earlier this month that her friend was actually a boy. The parent said that the supposedly transgender child had begun "flashing their willy" at girls in the school and is said to have disclosed his "deep secret" that he was a boy while in the girls' toilet of the school. <https://www.breitbart.com/europe/2024/01/27/four-year-old-boy-admitted-into-church-of-england-school-as-a-girl/>

Self-described witch details the discrimination she faced after abandoning her Christian upbringing in favor of the occult. A woman has opened up about the prejudice and discrimination she has faced after revealing she swapped Christianity for witchcraft. Cassie Brooks, 40, from Memphis, Tennessee, had dedicated her life to the church, volunteering as a missionary and working as an assistant pastor up until she discovered the occult. The accounting analyst was doing research for a children's book she was writing when she learned about the totems, crystals, and spirit guides that inspired her to make the move to witchcraft. 'I was raised a Southern Baptist and my family was at church every time the doors opened. There was no dancing, no drinking, and no cussing,' she said. 'It was a fire and brimstone type teaching of Christianity. It was definitely not acceptable to be queer or sexual or to be seen.' She now publicly identifies as a witch in the community that she lives in to help destigmatize a term that she said is often met with bias and negativity. Brooks recalled how many of her old friends ghosted her and pretended she didn't exist after she announced that she was a witch. Some told her they were praying for her because they wanted to save her from 'the prospect of hell.' 'I actually had a book publisher turn me away because I publicly said I was a witch,' she added. She said being a witch 'is as simple as lighting a candle or blowing one out.' <https://www.dailymail.co.uk/femail/article-13008083/witch-christian-discrimination-occult.html>

Once highly respected Christian College has now gone “WOKE”. Wheaton College is often called the “Harvard of Christian Schools” due to its academic rigor being relatively comparable to the Ivy League titan. Its graduates of note range from Billy Graham to Dan Coates, former Director of National Intelligence and U.S. senator. But recently, the school in the leafy suburb west of Chicago has begun to mimic Harvard’s wokeness. Banning biblical words, teaching critical race theory, and psychologizing gender identity issues may not seem extreme in modern academia. But for a school which houses the works of Rev. Graham, C.S. Lewis and J.R.R. Tolkien, it is adrift from its orthodox, Christian moorings. But this isn’t a recent drift. In the 2000s, the education department commended the teachings of Marxists. In 2016, 78 faculty members voiced support for a fellow professor who stated Christians and Muslims worship the same God.

The Laodicean Church:

Revelation 3:14-16 To the angel of the church in Laodicea write: The Amen, the faithful and true Witness, the beginning of the creation of God, says this: 15 I know your deeds, that you are neither cold nor hot; I wish that you were cold or hot. 16 So because you are lukewarm, and neither hot nor cold, I will spit you out of My mouth.

Matthew 6:24 No one can serve two masters; for either he will hate the one and love the other, or else he will be loyal to the one and despise the other. You cannot serve God and mammon.

Catholic University has abortion counselor teach class. A self-declared “abortion doula” spoke this week to Catholic University of America students about her experiences coaching women through delivering or aborting babies, as well as coaching “pregnant men” to deliver in what she called a “seahorse birth,” according to audio of the class lecture obtained by The Daily Signal. A Catholic University nursing student described Tuesday’s lecture to The Daily Signal, saying the guest speaker said she also practices Reiki, a controversial Japanese method of spiritual healing and self-improvement.

Religious studies professor claims the Bible supports the idea that individuals can “change their gender”. The Bible supports the idea that individuals can change their gender, according to a Catholic university professor in Ohio. University of Dayton professor Esther Brownsmith listed “a few of the ways that scripture portrays gender as a colorful spectrum, not a rigid binary,” in response to a vote Wednesday by Ohio lawmakers to override the governor’s recent veto of a bill that prohibits biological males from competing in women’s sports and restricts sex-change treatments for minors. She claimed Joseph was one of many people in the Bible who “crossed gender boundaries,” saying, “Deborah led an army, Mordecai breast-fed his cousin Esther, and Daniel was probably a eunuch.” “Even God is sometimes described with feminine language, as a midwife or nursing mother,” she wrote in an opinion piece published in the Dayton Daily News on Thursday in which she identified herself as a Christian. “Yes, the Bible was written in a patriarchal time, but it recognizes that people reimagined and reshaped their gender identities back then—just like they do today.” Brownsmith continued to explain her belief that the Bible supports gender transitions as an urgent matter in society.

“As a professor of Hebrew Bible at the University of Dayton, I believe that scripture and trans rights are not at odds. To the contrary: the Bible calls for us to support society’s most vulnerable members, and that call has rarely been more urgent,” she wrote. “Most Americans agree that religion should not dictate public policy, but these proposed rules are rooted in ingrained religious biases about gender roles,” she added. “Those biases are unethical and unbiblical. Our trans neighbors are radiant gifts of God, just like Joseph and Deborah, and they are terrified by our government trying to legislate them out of existence.”

The Catholic Church, in contrast, teaches that in the Bible there are two sexes as laid out by the first chapter of Genesis which states, “God created man in his own image [...] male and female he created them,” according to a Vatican document. Brownsmith also cited the Genesis verse in her call to support “gender-affirming,” “lifegiving health care,” but did not include the part specifying “male and female.”

Pope Francis doubles down on homosexual blessings: ‘Not the union, but the people’ are blessed. The Pontiff doubled down on the arguments ... stating that the blessing of two people together is not meant to condone the fact of the two people being together: Pope Francis emphasized that the extra-liturgical blessings 'do not require moral perfection to be received' and 'that when a couple spontaneously approaches to ask for them, one does not bless the union, but simply the people who together made the request.'

VATICAN CITY, Jan 29 (Reuters) - Pope Francis said in an interview published on Monday that Africans were a "special case" in the opposition of bishops and many other people in the continent to homosexuality. But he said he was confident that, except for Africans, critics of his decision to allow blessings for same-sex couples would eventually understand it. Blessings were allowed last month in a document called *Fiducia Supplicans* (Supplicating Trust), which has caused widespread debate in the Catholic Church, with particularly strong resistance coming from African bishops. "Those who protest vehemently belong to small ideological groups," Francis told Italian newspaper *La Stampa*. "A special case are Africans: for them homosexuality is something 'bad' from a cultural point of view, they don't tolerate it". "But in general, I trust that gradually everyone will be reassured by the spirit of the 'Fiducia Supplicans' declaration by the Dicastery for the Doctrine of the Faith: it aims to include, not divide," the pope said.

Joe Bidens America: U.S. Capitol Police Conclude Investigation into Senate Hearing Gay Sex Tape — No Evidence of Criminal Activity Found. Despite the uproar and the initial firing by Senator Cardin's office, the Capitol Police's investigation has not found evidence of criminal activity. In a statement, the Capitol Police announced that, after extensive consultation with prosecutors and a thorough investigation, no crimes appear to have been committed. The statement read, "For now, we are closing the investigation into the facts and circumstances surrounding a sex video that was recorded inside the Hart Senate Office Building on the morning of Wednesday, December 13. Although the hearing room was not open to the public at the time, the Congressional staffer involved had access to the room." The Capitol Police further clarified that the two individuals in question were not cooperative with the investigation and that the former staffer exercised his Fifth Amendment right to remain silent. The Capitol Police have stated they are open to revisiting the case should new evidence emerge but, for now, the investigation has been closed without charges being filed. (If this had happened under the Trump administration this would have been 24/7 non stop news especially with the outcome of the investigation. But under Biden, very little coverage and you see what the outcome was just like the cocaine found in the White House).

Former Trump Admin Official in Critical Condition After Being Shot During a Carjacking Spree in D.C... Mike Gill, a prominent Republican figure and former Chief Operating Officer of the Commodity Futures Trading Commission (CFTC) during Donald Trump's administration, was critically injured in a violent carjacking incident in Washington, D.C., on Monday night, the Daily Wire reported. Gill was attacked while waiting in his car to pick up his wife from her office on K Street, a bustling area just blocks away from the White House, at approximately 5:45 pm, ABC7 News reported. "We can confirm that Mike Gill was the victim of the shooting at the 900 block of K Street Northwest on Monday evening and is in critical condition," Erica Richardson, a spokesperson for the Gill family, told The Daily Wire. <https://www.thegatewaypundit.com/2024/01/former-trump-admin-official-critical-condition-after-being/>

DC AG tells angry locals his department 'cannot prosecute and arrest our way out of' crime spiral that saw Trump official shot during carjacking that killed second victim, and 60 car break-ins in 72 hours. During a recent panel, the Attorney General for Washington, DC told residents concerned by the skyrocketing crime rate that his department could not 'prosecute and arrest our way out' of the problem. AG Brian Schwalb was specifically talking about the epidemic of violent crime - including enormous numbers of carjackings - that is currently plaguing the nation's capital. A clip of the panel that was initially aired by Fox 5 has been viewed on X close to 300,000 times. It's circulation and the AG's shocking statement come in the wake of a violent criminal spree by a carjacker on Monday evening that left one area resident dead and another - a former Trump administration official - in critical condition.

Joe Biden's DOJ to Fight D.C.'s Violent Crime Surge in Election Year. President Joe Biden's Department of Justice (DOJ) launched an initiative on Friday to curb the soaring crime rates in the Democrat-controlled city of Washington, DC, just as the 2024 presidential election cycle swings into focus. The timing of the initiative suggests the Biden administration recognizes soaring crime as a political vulnerability for the Democrat party. Crime in the Democrat-controlled city spiked in 2023, according to police department data.

Online 'Sextortion' is Fastest-Growing Crime Targeting Minors. Online "sextortion" is the fastest-growing crime targeting kids in the West, and social media companies are failing to do more to prevent it, according to a recent study. A cybercriminal group in West Africa known as "Yahoo Boys" is driving "financial sextortion," which involves coercing kids and teens into sending explicit images of themselves, and then threatening their family with wide distribution of the images unless they pay them repeatedly via payment apps, cryptocurrency transfers, or gift cards, according to a study from the Network Contagion Research Institute (NCRI).

State Department reviewing options for possible recognition of Palestinian state. Secretary of State Tony Blinken asked the State Department to conduct a review and present policy options on possible U.S. and international recognition of a Palestinian state after the war in Gaza, two U.S. officials briefed on the issue told Axios. Why it matters: While U.S. officials say there has been no policy change, the fact the State Department is even considering such options signals a shift in thinking within the Biden administration on possible Palestinian statehood recognition, which is highly sensitive both internationally and domestically.

David Cameron Says UK Considering Recognising Palestinian State. The moment when the UK formally recognises a Palestinian state at the end of Israel's war with Hamas might be drawing nearer, the Foreign Secretary David Cameron suggested Monday. The diplomatic initiative would come despite the fact doing so would reward Hamas for the terror attack of October 7 and defy Israel's opposition to any such move. Cameron, speaking ahead of his fourth visit to the region since being appointed Britain's top diplomat in November, claimed Palestinians had to be given a political horizon to encourage peace in the Middle East.

AI Can Design Totally New Proteins From Scratch—It's Time to Talk Biosecurity. Two decades ago, engineering designer proteins was a dream. Now, thanks to AI, custom proteins are a dime a dozen. Made-to-order proteins often have specific shapes or components that give them abilities new to nature. From longer-lasting drugs and protein-based vaccines, to greener biofuels and plastic-eating proteins, the field is rapidly becoming a transformative technology. Custom protein design depends on deep learning techniques. With large language models—the AI behind OpenAI's blockbuster ChatGPT—dreaming up millions of structures beyond human imagination, the library of bioactive designer proteins is set to rapidly expand.

Thank You Graham: Elon Musk is planning to build his own futuristic new city in Texas — here's what will make 'Snailbrook' so unique. Elon Musk is famous for having big, outlandish ideas. But one of his biggest is to build his own city in Texas. According to reporting from the Wall Street Journal, Musk-owned entities have been buying up land — at least 3,500 acres of it — near Austin, Texas, and are in the process of trying to incorporate a town called "Snailbrook." The name, apparently, is a reference to the snail mascot for another Musk venture, The Boring Company. The idea behind Snailbrook is that Musk's employees would live and work there. Essentially, it's an extension of a practice that many modern tech companies already engage in, outfitting their offices with lots of amenities in order to encourage the employees to never leave work. In this case, tying housing directly to employment would mean that the workers would literally never leave — unless they went on vacation or were fired. In the latter case, they would reportedly have 30 days to vacate their homes.

Thank You Graham: Tesla's CEO @elonmusk agreed with a X post that having 1 billion humanoid robots doing tasks for us by the 2040s is possible. Farzad made some observations which Elon Musk tweeted agreement. The form factor of a humanoid robot will likely remain unchanged for a really long time. A human has a torso, two arms, two legs, feet, hands, fingers, etc. Every single physical job that exists around the world is optimized for this form factor. Construction, gardening, manufacturing, housekeeping, you name it. That means that unlike a car (as an example), the addressable market for a product like the Tesla Bot will require little or no variations from a manufacturing standpoint. With a car, people need different types of vehicles to get their tasks done. SUVs, Pick Ups, compacts, etc. There's a variation for every use case.

Rutherford Institute asks Supremes to end online speech limits. Urges justices to treat platforms as common carriers like utilities. The Rutherford Institute, which fights in America's courts for religious, speech and other constitutional rights, is asking the Supreme Court to end online censorship done by corporate giants who want to limit the ideas Americans can hear. The organization has filed a brief with the high court as it considers two cases, NetChoice v. Paxton and Moody v. NetChoice, which both focus on corporate attempts to censor Americans' speech. The organization said it is asking for protection for free speech forums on social media, against attempts by corporations to "block, ban, remove, deplatform, demonetize, de-boost, restrict, deny equal access or visibility to, or otherwise discriminate against viewpoints of which they might disapprove."

Firm says it didn't realize customers were being hacked. 23andMe has revealed that cyberattacks were targeting customers for months without the company realizing. According to an obligatory notification letter sent to California's attorney general, accounts belonging to users of the genetic testing firm were being hacked from about April to September 2023, in a series of brute force attacks. Millions of people's genetic data was leaked on the dark web by the threat actor, after a total of 14,000 users had their accounts breached, according to 23andMe's filing with the Security and Exchanges Commission (SEC). The Blame Game: In a letter sent to victims of the breaches, 23andMe laid the blame at the feet of customers, as they "negligently recycled and failed to update their passwords following past security incidents unrelated to 23andMe." Even though they hacked into tens of thousands of accounts, the hackers were able to steal personal data on 6.9 million customers thanks to the company's DNA Relatives feature, which allows users to share data with relatives on the platform.

The Beast System:

Revelation 13:14-18 And he deceives those who dwell on the earth because of the signs which it was given him to perform in the presence of the beast, telling those who dwell on the earth to make an image to the beast who had the wound of the sword and has come to life. 15 And it was given to him to give breath to the image of the beast, so that the image of the beast would even speak and cause as many as do not worship the image of the beast to be killed. 16 And he causes all, the small and the great, and the rich and the poor, and the free men and the slaves, to be given a mark on their right hand or on their forehead, 17 and he provides that no one will be able to buy or to sell, except the one who has the mark, either the name of the beast or the number of his name. 18 Here is wisdom. Let him who has understanding calculate the number of the beast, for the number is that of a man; and his number is six hundred and sixty six.

Thank You Sister Shannon: I thought about putting this on the Giants page, but then as I watched this video I thought I would place it in the Beast System. You will see just how easy it will be for this all to merge and take place.

Dutch Queen Máxima's popularity dwindles as she markets Digital IDs and CBDCs. The once hugely popular Queen Máxima of the Netherlands is falling into disgrace with the Dutch public. Since October 2022, she has been making the rounds in international conferences and meetings to promote a totalitarian means of coercion, casually praising central bank digital currencies ("CBDCs") and digital identities ("IDs").

Rage against the machine: Americans warn Elon Musk to 'stop creating cyborgs' after he revealed the first human has had Neuralink's brain chip. Elon Musk has left even his most ardent fans terrified after he revealed his tech start-up Neuralink has become the first to successfully implant a microchip into a human brain. The world's richest man said the operation took place on Sunday and 'initial results show promising neuron spike detection'. The device - called 'Telepathy' will 'enable control of your phone or computer, and through them almost any device, just by thinking', he said. But many of his 170 million followers on X, formerly Twitter, accused him of 'mind control', creating 'cyborgs', and even 'playing God'. 'The negative potential of this makes me very uneasy,' one person wrote in a reply to his announcement.

Biden regime expanding intrusive facial recognition scans to all 430 'federalized' airports – Leo Hohmann. Joe Biden's Transportation Security Administration is moving forward with plans to expand facial-recognition technology at 430 U.S. airports despite the fact that a bill has been introduced with bipartisan support calling for the government to end the invasive policy of stealing the biometric data of millions of airport passengers.
